

## **Diversity And Equality**

All policies, along with the practice guidance, have to be accessible to all members of the community.

An equalities impact assessment will be carried out on the revised Safeguarding Adults Policy, and we will seek feedback from as wide a source of people as possible prior to the policy and guidance being finalised.

Feedback can be given at any time to the Safeguarding Adults Coordinator in your area, and care will be taken to incorporate necessary changes when the policy is next reviewed.
