BRAUNTON DEVON TOWN AREA

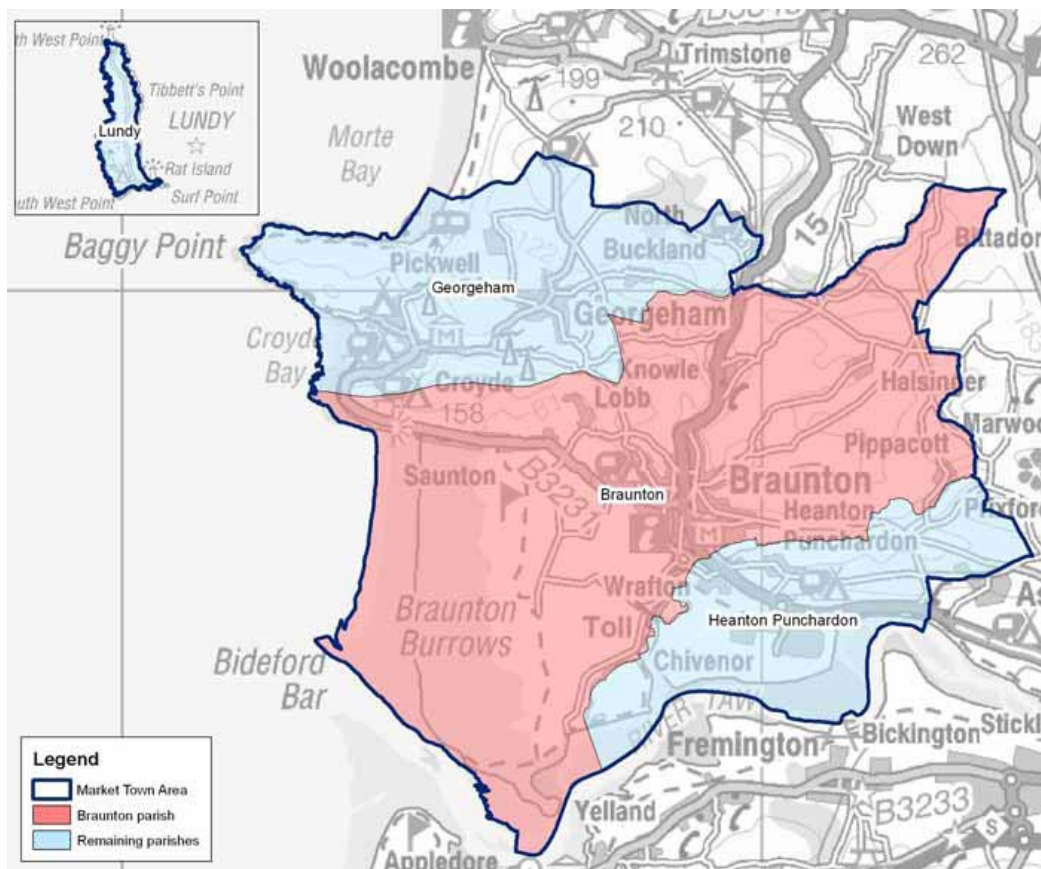

The Place Survey

Area Definition

In this report the Braunton Devon Town Area (DTA) comprises the main parishes of Braunton along with two other parishes.

The structure of the population in the market town area is broadly similar to that across the district and the county. However, there is a higher proportion of the younger age groups 25 to 44 in the rural areas.

The level of households occupied by individuals in the market town area is similar to the district average and slightly below the levels for the county and nationally. Rates of single person occupancy are higher in Braunton Parish than in the remaining parishes..

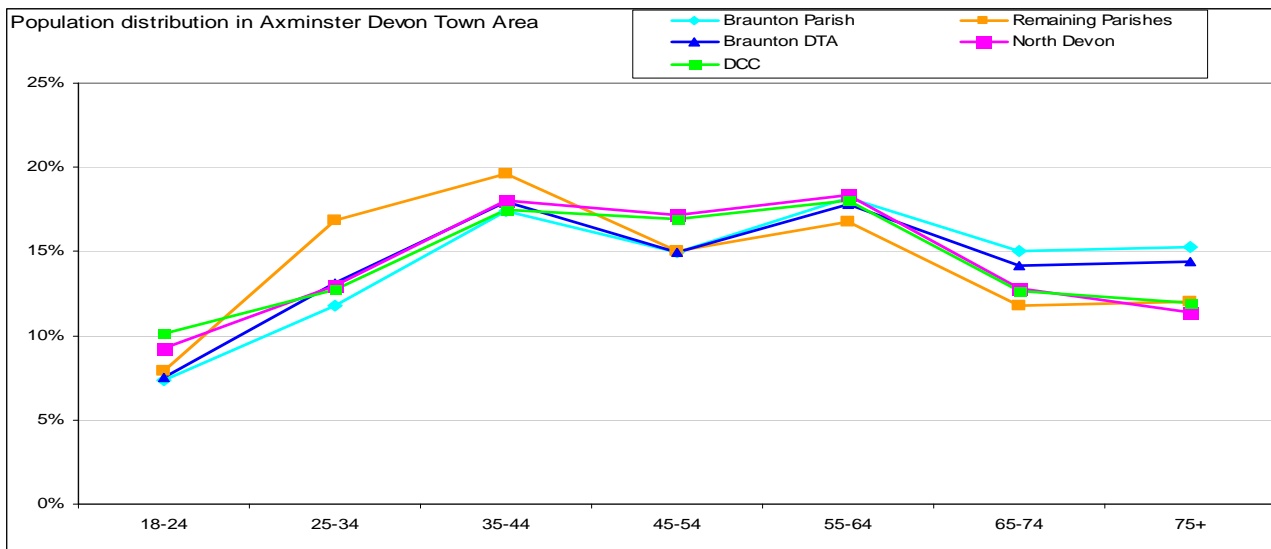

Crown Copyright. All rights reserved. Devon County Council. 100019783 2006

The table overleaf shows the population over 18 (those eligible to complete the Place Survey). Braunton Parish is the most populated parish accounting for 74% of the total DTA population. The age profile is however slightly younger in the remaining hinterland parishes than in Braunton Parish.

Overall in the Braunton DTA the largest groups of adult residents are in both the 35-44 and 55-64 age ranges.

Parish	18 to 24	25 to 34	35 to 44	45 to 54	55 to 64	65 to 74	75+	Total Population 18 plus	% total DTA 18+ population

Braunton DTA Place Survey Respondents compared with the underlying Devon Town Area

This section looks at how similar the respondents are to the underlying Braunton DTA population in terms of lifestyle, age, deprivation, tenure and occupation. In doing this it is hoped the results of the survey will be given more credence as representing the underlying population.

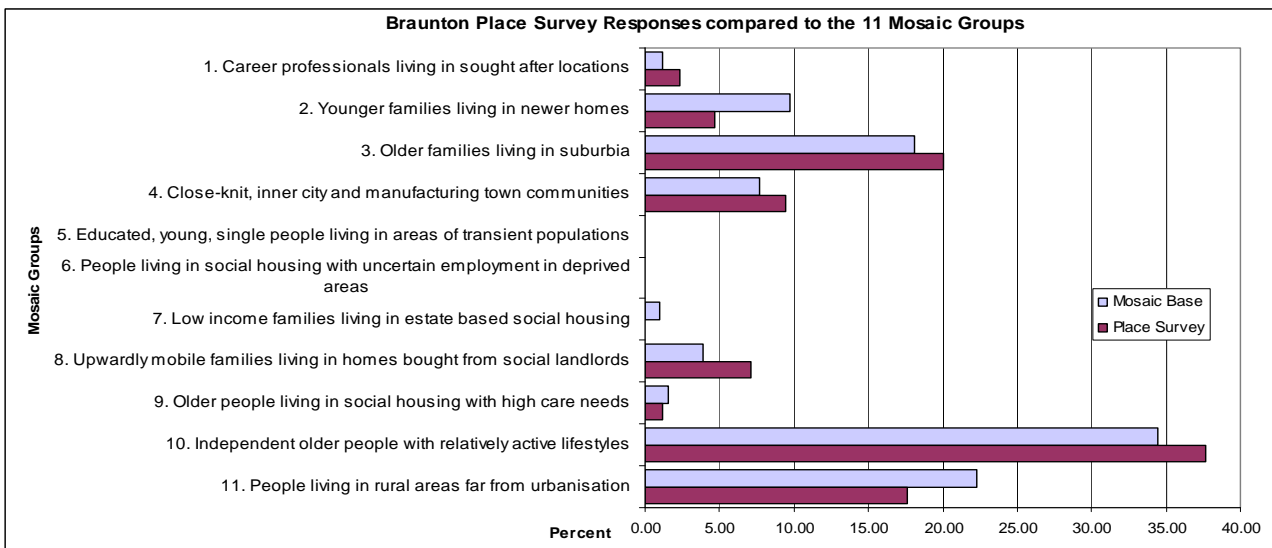

To summarise, the people who responded to the Place Survey in the Braunton DTA are compared with the underlying population of the Braunton DTA:

- Respondents are quite different in terms of lifestyle (Mosaic).
- There is a bias towards the 55 plus age groups at the expense of the 18 to 34 year olds.
- Respondents are representative of the population for deprivation.
- A bias exists to those who own their properties outright at the expense of those who have a mortgage.
- There is also a bias towards the retired and the self employed at the expense of those in full time employment.

Mosaic (Experian)

Mosaic classifies people in terms of lifestyle. There are 11 Lifestyle Groups and 61 Lifestyle Types. For more information please see the Devon Town profiles (http://www.devon.gov.uk/Braunton_mosaic_profile.pdf) or (<http://www.devon.gov.uk/appendix.pdf>)

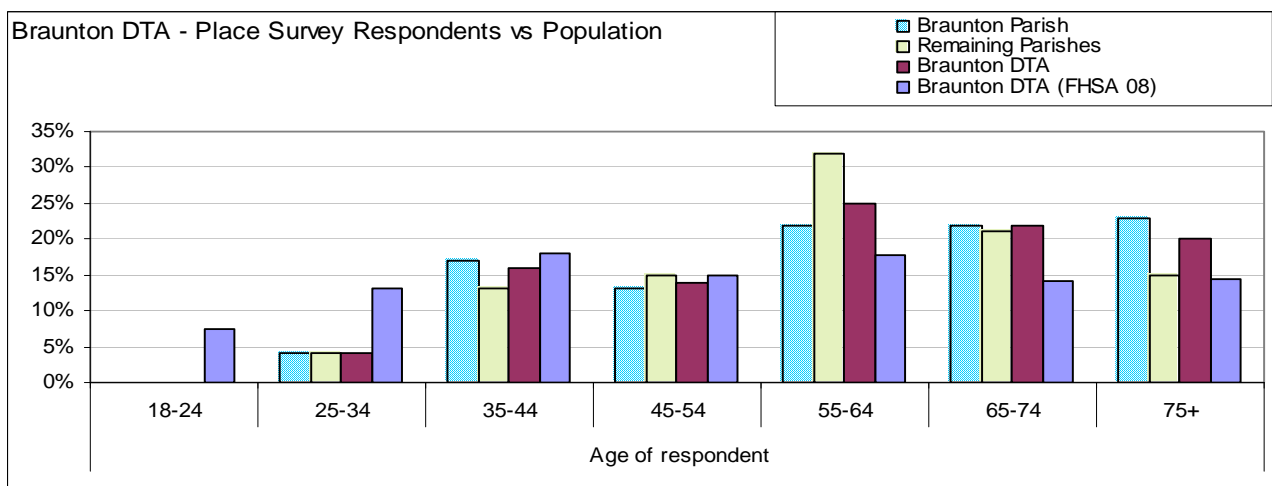

The graph below illustrates that in terms of Mosaic Groups the Place survey respondents from the Braunton DTA are quite different to the population structure of Braunton DTA. There is however over representation in groups 8 and 10 but under representation in group 2 and 11.

Age

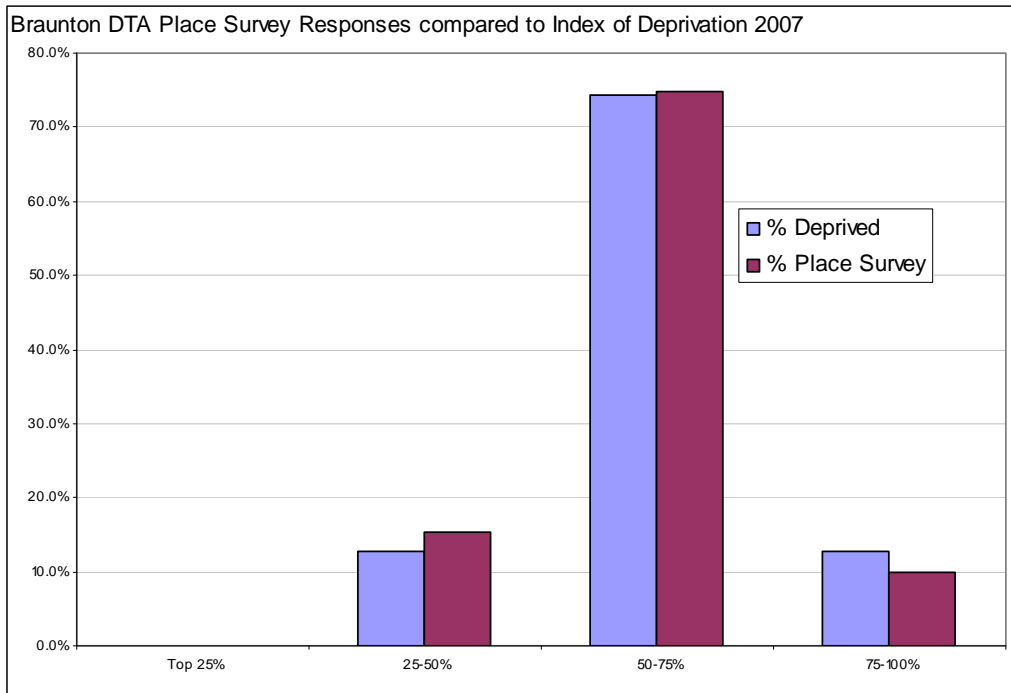

The table and graph below show how the Braunton DTA Place survey respondents tend to be biased towards the older population. From the age ranges of 55 years old and upwards the proportion of respondents is much greater than the underlying population whereas there is a distinct under-representation of the younger respondents particularly 18 to 34 year olds.

	18-24	25-34	35-44	45-54	55-64	65-74	75+
Braunton Parish – Place Survey Response	0%	4%	17%	13%	22%	22%	23%
Remaining Parishes (PSR)	0%	4%	13%	15%	32%	21%	15%
Braunton DTA (PSR)	0%	4%	16%	14%	25%	22%	20%
Braunton DTA (FHSA 2008)	8%	13%	18%	15%	18%	14%	14%

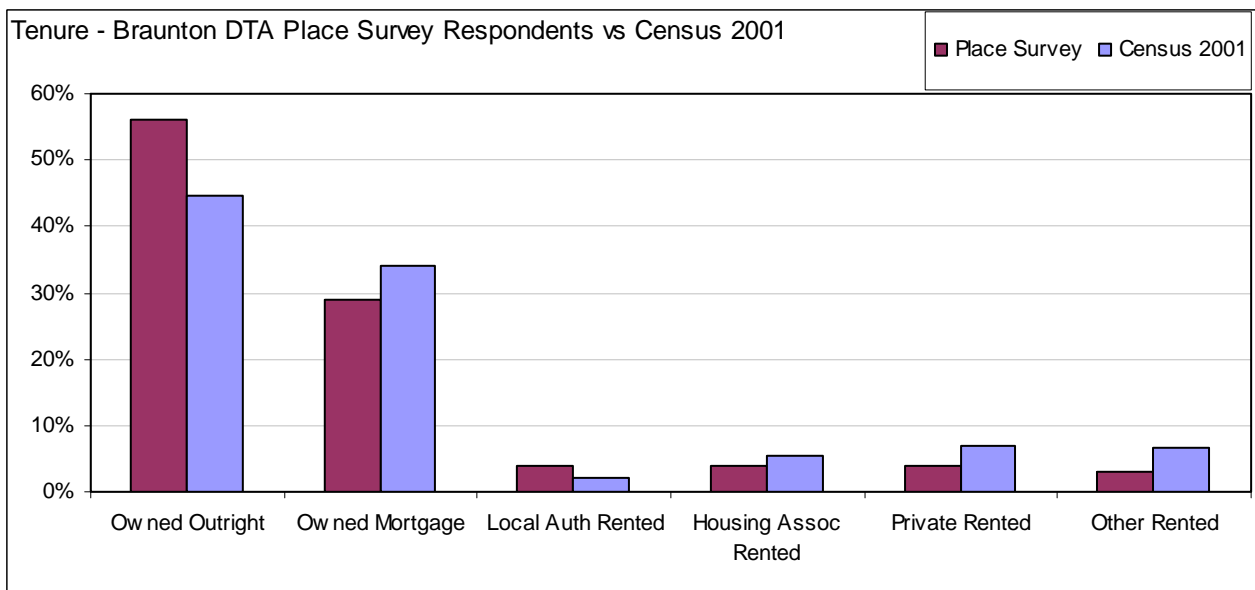

Deprivation (ID 2007)

The Place Survey has been completed by similarly deprived groups which reflect the population.

Tenure

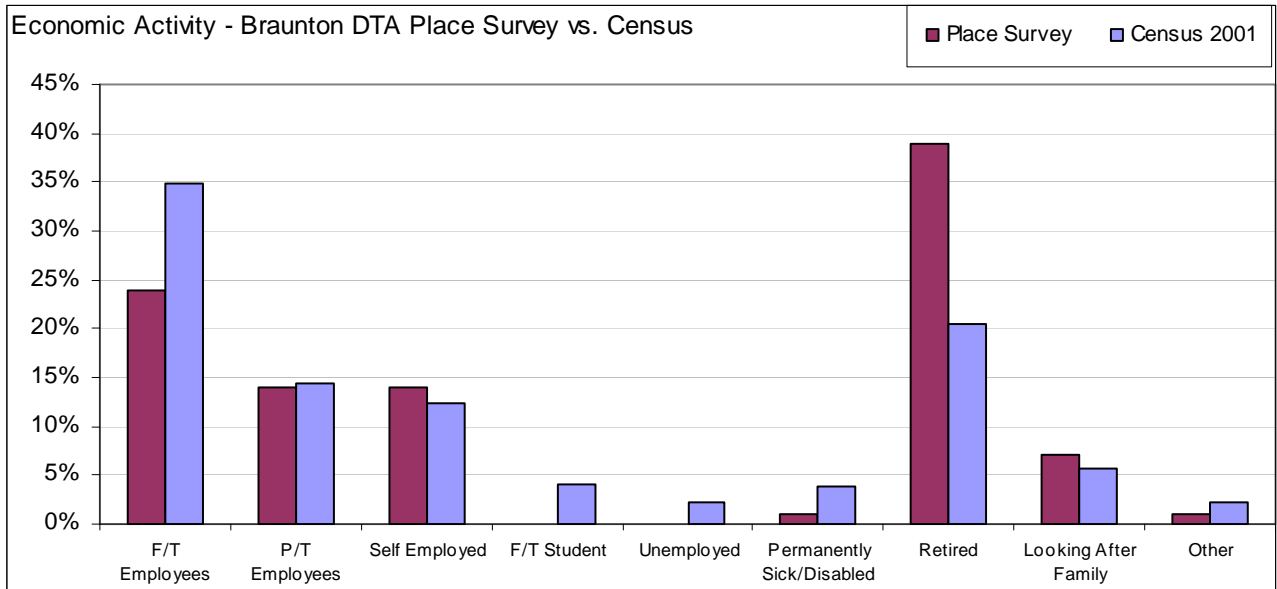

The graph below compares the tenure of Place Survey respondents with the underlying population's tenure (census 2001). One notable difference is that more respondents own their property outright whilst fewer own with a mortgage when compared to the underlying population.

Note that Census information comes from a population aged 16 to 74 whereas the place survey comes from an age range from 18 and above.

Occupation

The current activities of the Braunton DTA Place Survey respondents have been compared to the activities described by the underlying population in the 2001 census. A higher proportion of retired people responded than expected compared with lower proportions of full-time employees.

Note that Census information comes from a population aged 16 to 74 whereas the place survey comes from an age range from 18 and above.

The Place Survey & Devon's Sustainable Community 2008 to 2018

The Sustainable Community Strategy is the overarching plan for improving the quality of life of everyone in Devon. It is the long term vision for Devon with key priorities and outcomes for the next ten years.

It aims to achieve the vision of Devon as:

England's greenest county with strong local communities that are prosperous and welcoming with an excellent quality of life and a sustainable future.

In order to achieve this vision the following priorities have been set:

- **A World Class Environment**
- **Homes and Housing**
- **A Safer Devon**
- **Strong and Inclusive Communities**
- **Health and Wellbeing**
- **Inspiring Young People**
- A Growing Economy – (not represented by questions in the Place Survey)

The Place Survey covers various aspects but not all of the above Sustainable Community Strategy's priorities as well as other questions. The Place survey results in this report have been organised loosely around the above priorities.

Braunton Devon Town Area

The results published for District Council areas and above have been weighted by the Department of Communities and Local Government (DCLG). As it would not have been possible to replicate their weighting system for smaller areas, such as Devon Towns and hinterlands, the results used in this report have not been weighted.

Overall, Devon performs strongly against most other local authorities in England for most of the questions asked in the Place Survey, and any low positions for the Braunton DTA within Devon may not be as serious as they appear, this is borne out by the comparisons with national results.

To enable comparison of results each Town has been placed into one of four quartiles each comprising seven/eight Towns. The upper and lower quartiles have been coloured and numbered 'yellow (1) – best' and 'red (4) – worst' with the other two middle quartiles being referred to as 'blue (2)' and 'orange (3)'. The worst and best are related to performance or involvement etc. dependent on the question.

Overview of performance against priority areas

Compared with other Devon Town Areas, the Braunton DTA ranks well above average in the questions looked at with 70% appearing in the upper two quartiles. Most results fall into the **yellow** quartile (42%) followed by **blue** quartile (28%) which indicates a comparatively high level of satisfaction. Nine (22%) out of the 40 questions considered fell into the **orange** quartile with the remaining three questions (8%) in the **red** quartile.

Looking at priority areas, the Braunton DTA fared better than average in all sections with the exception of 'A safer Devon' which over all saw an equal number of questions in the upper and lower quartiles though most in the orange quartile (42%).

The following table illustrates where the questions fall in terms of both priority area and quartile:

Priority Area	No. questions	Quartile into which each question falls			
		Worst			Best
A world class environment	8		3	2	3
Homes and Housing	2			1	1
A safer Devon	12	1	5	2	4
Strong and Inclusive communities	9	2		4	3
Health and Well being	4			1	3
Inspiring young people	5		1	1	3
Total	40	3	9	11	17
Percentage	100%	8%	22%	18%	42%

Summary and results table

With respect to the areas that Braunton DTA sees as important and in need of improvement, affordable decent housing followed at some distance by the level of traffic congestion and activities for teenagers stand out as priorities.

The Braunton DTA shows a comparatively high level of satisfaction (**A World Class Environment**) with its living environment when compared to other DTAs. Satisfaction with services such as doorstep recycling, local tips/ household waste recycling centres and local transport information fall into the **yellow** quartile whilst the perception that local public services are working to keep the land clear of litter/ refuse falls into the **blue** quartile along with satisfaction with local bus services. In the **orange** quartile fall satisfaction with public refuse collection and satisfaction with public services responsible for keeping land clear of litter/rubbish as well as the degree to which rubbish and litter lying around is seen as a problem.

With regard to '**Homes and Housing**', satisfaction with the local area as a place to live fared comparatively well falling into the **yellow** quartile whilst with satisfaction with and homes appeared in the **blue** quartile.

Questions that fall under a '**Safer Devon**' priority indicate that the Braunton DTA respondents have comparatively mixed feelings. Six out of the 12 results fall into the upper quartiles; Perceptions that local public services are working to make the area safer, satisfaction with Devon & Cornwall Constabulary, dealing and understanding local concerns about ASB and crime fall into the **yellow** quartile whilst perceptions of ASB, and drug use as problem fall into the **blue** quartile. In the lower quartiles are satisfaction with Devon & Somerset Fire and Rescue, perceptions of drunk and rowdy behaviour and teenagers hanging around streets are a problem along with perceptions that parents do take enough responsibility for their children and feelings of safety after dark, all fell into the **orange** quartile. Finally in the **red** quartile is the extent of the problem of vandalism, graffiti and other deliberate damage to property or vehicles.

'**Strong and Inclusive Communities**' is a priority area that looks at community cohesion. Compared with other DTAs, the Braunton DTA respondent perceptions were well above average. On a positive note in the **yellow** quartile respondents believed that people from different backgrounds get on well in their area and they felt that they belong to their neighbourhood. The also wanted to be more involved in decisions that affected the local area. In the **blue** quartile were opinions regarding the extent that local public services promoted the interests of local residents, acted on their concerns and treated all types of people equally. In the **blue** quartile was also the feeling that people treat each other with respect and consideration. On the other hand in the **red** quartile were feelings that respondents could influence decisions in their local area and their involvement in decision making within the previous 12 months.

With respect to '**Health and Wellbeing**', the overall perception lies in the **yellow** quartile along with satisfaction with GPs and the local hospital. Satisfaction with dentists however lies in the **blue** quartile.

The Braunton DTA has mostly good levels of satisfaction in areas that fall under the ‘inspiring young people’ priority. User satisfaction with sport/ leisure facilities is the only facility appearing in the lower (orange) quartile. All other aspects fall into the upper quartiles with satisfaction with libraries, museums/ galleries and theatres/ concert halls in the yellow quartile and satisfaction with parks/open spaces in the blue quartile.

The table below shows the position of the Braunton Devon Town Area in relation to the other 28 Town Areas.

Devon Town Area Detailed Results

When comparing each of the Devon Town Areas in the charts below, care should be taken with the results for all questions relating to Moretonhampstead and Lynton & Lynmouth DTAs. Compared with other areas, these two DTAs contain very small numbers of households, and consequently numbers of responses are too low to provide reliable comparisons. Given this, Place Survey reports on these two DTAs have not been published.

The scatter graph illustrates the results for questions 1 and 2 (what is important and what needs improving). It gives an overall impression of how the Braunton DTA respondents feel about the facilities/ services and other factors influencing everyday life as a resident in Braunton DTA.

Those areas that are seen as most important (in making somewhere a good place to live), and in need of improvement (in the Braunton DTA) appear in the upper right hand section of the scatter graph. Affordable decent housing is the most obvious priority followed at some distance by the level of traffic congestion and activities for teenagers.

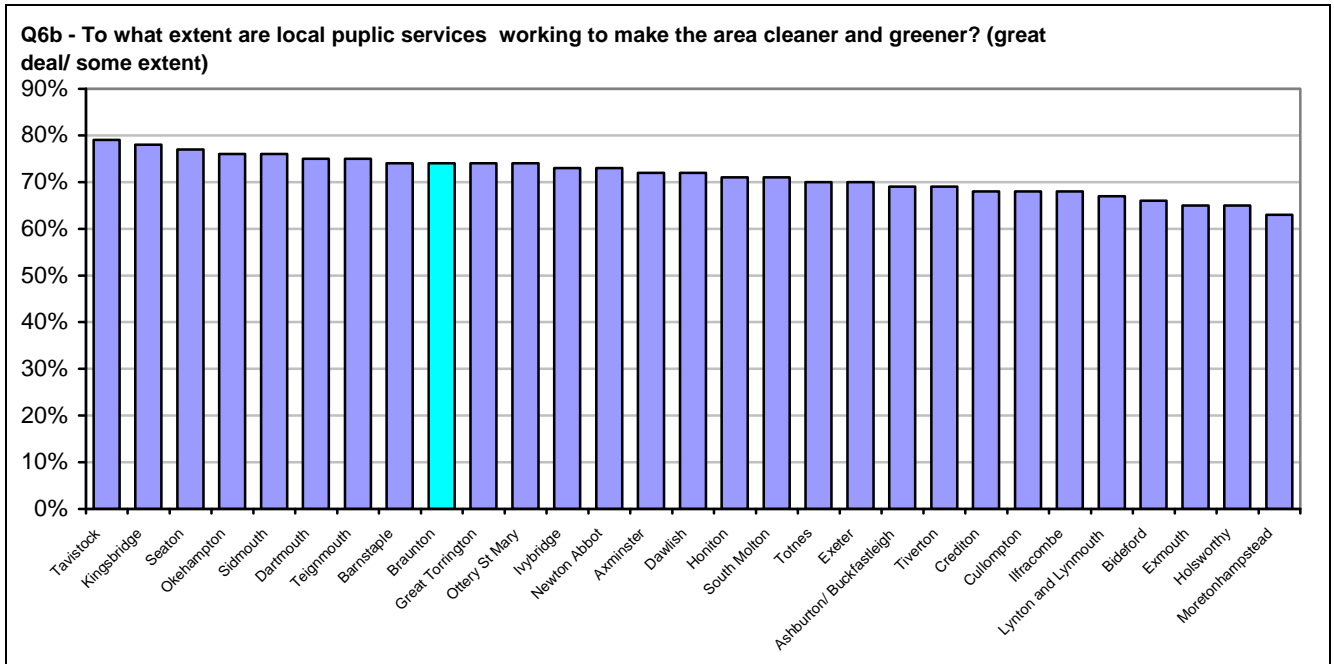

The bottom left hand corner shows the areas that are of comparatively low importance (in making somewhere a good place to live) and in comparatively less need of improvement (in the Braunton DTA).

A World Class Environment

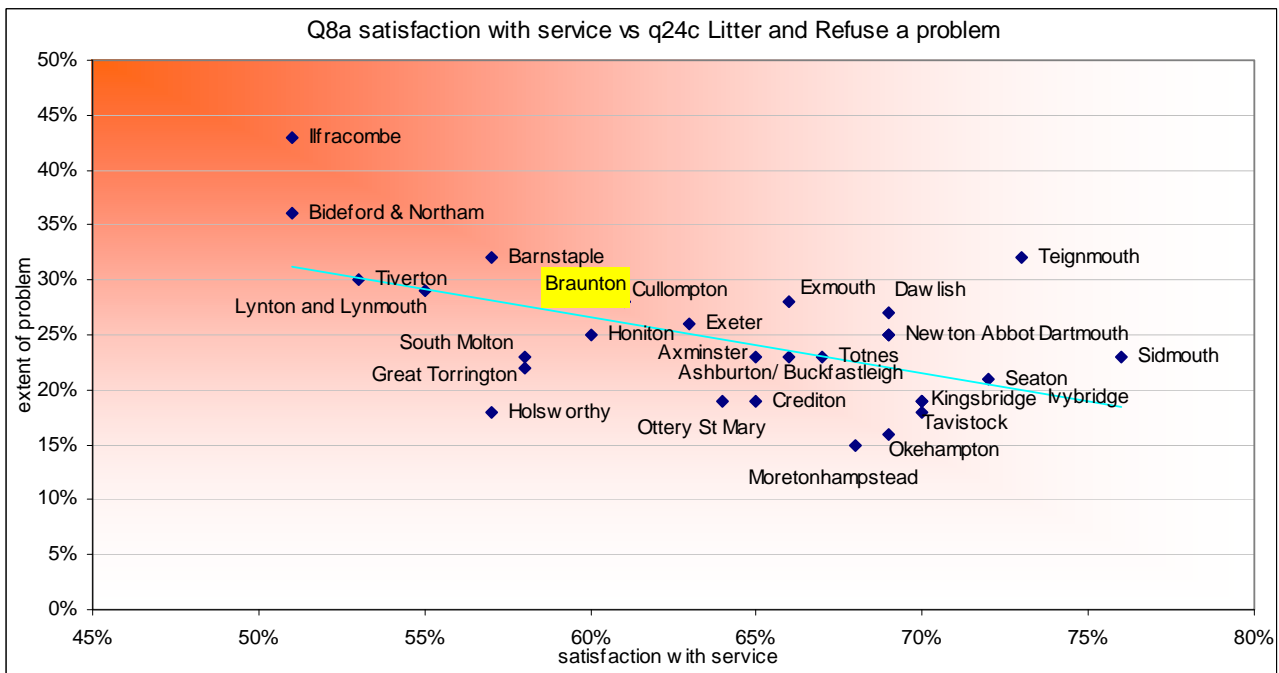

Q6b To what extent are local public services working to make the area greener and cleaner? (a great deal/ to some extent)

The Braunton DTA appears in the **blue** quartile with 74% of respondents thinking that public services are working to make the area greener and cleaner (max 79%; min 63%).

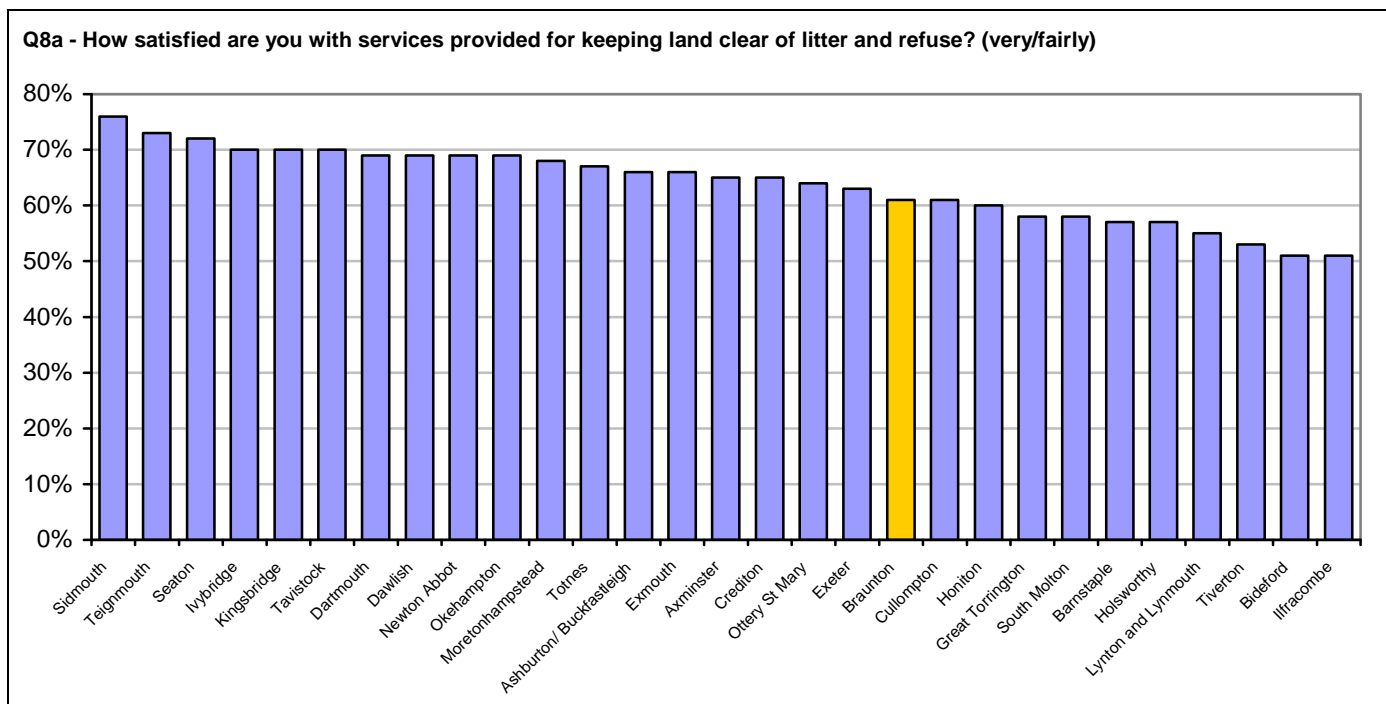

Q8a How satisfied are you with local public services that work to make the area greener and cleaner? (very/ fairly satisfied)

Q24c How much of a problem in your local area is rubbish and litter lying around? (a very big/ fairly big problem)

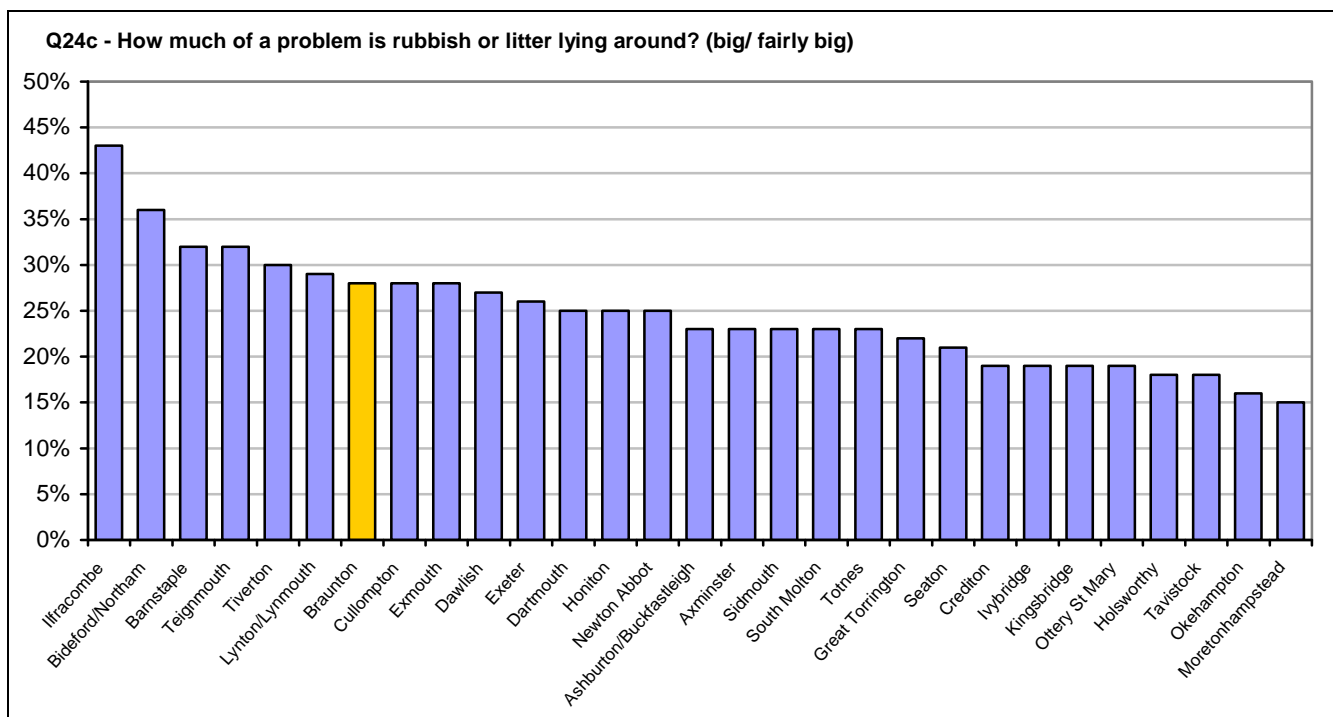

The scatter diagram above shows that Braunton is towards the worst areas in the top left but not as bad as Ilfracombe, Bideford & Northam and Barnstaple for example.

Braunton DTA falls in the **orange** quartile for Q8a with 61% of respondents being very/ fairly satisfied (max 86%; min 51%; national average 58%).

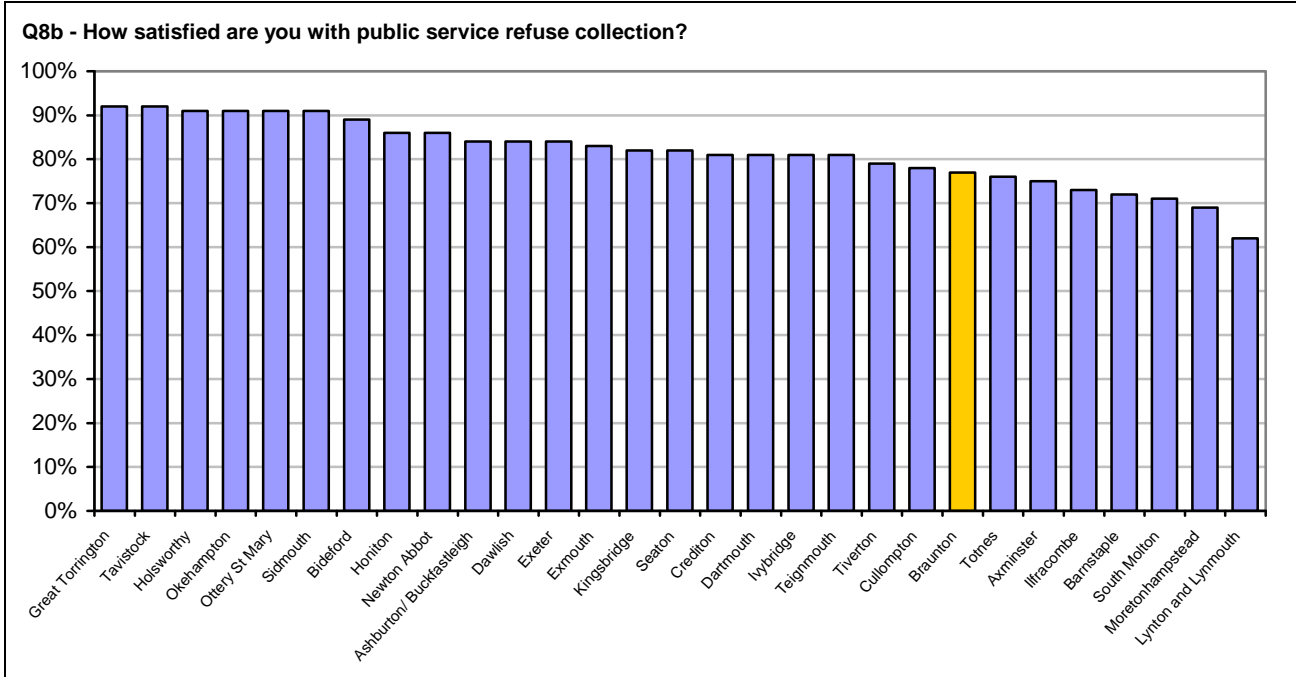

28% of the Braunton DTA respondents saw the problem of rubbish or litter lying around as a big/ fairly big problem which when compared with responses from other areas puts the Braunton DTA in the **orange** quartile for Q24c (max; 43%; min: 15%).

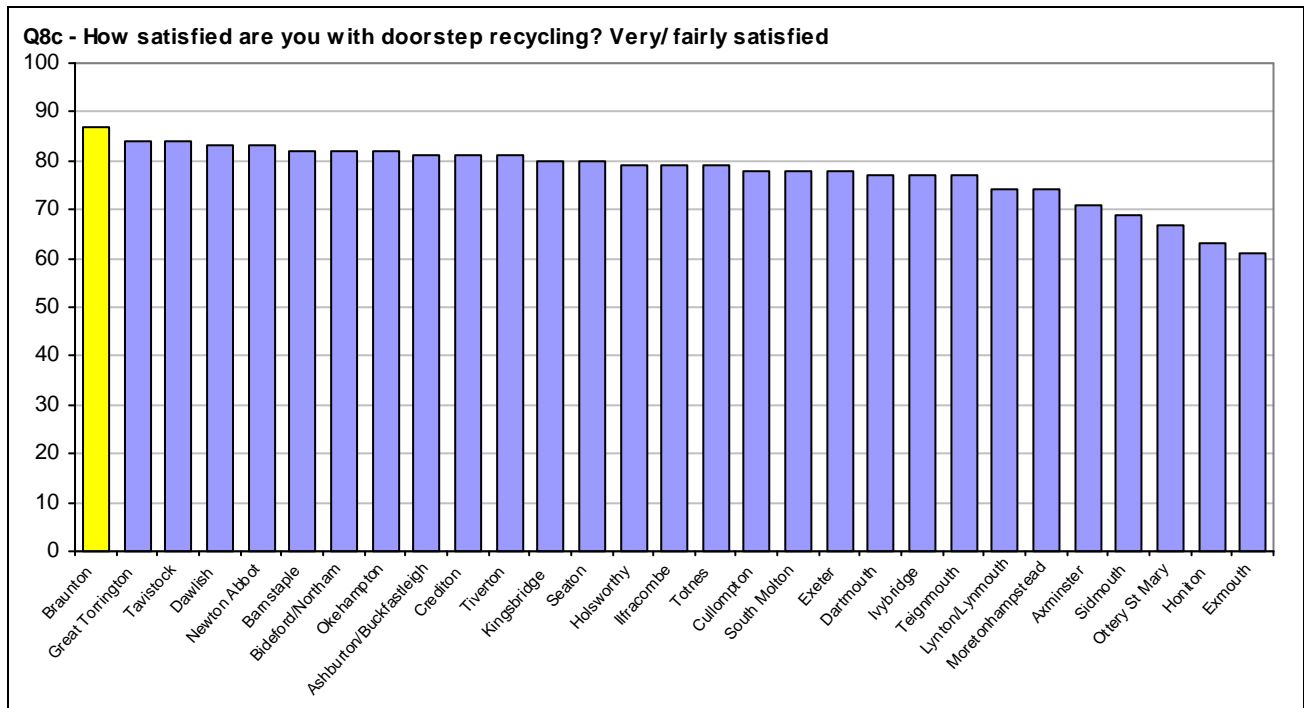

Q8b How satisfied are you with local public services responsible for refuse collection? (very/ fairly satisfied)

The Braunton DTA is in the **orange** quartile with 77% of respondents being very/ fairly satisfied with refuse collection. (max 92%; min 62%; national average 77%).

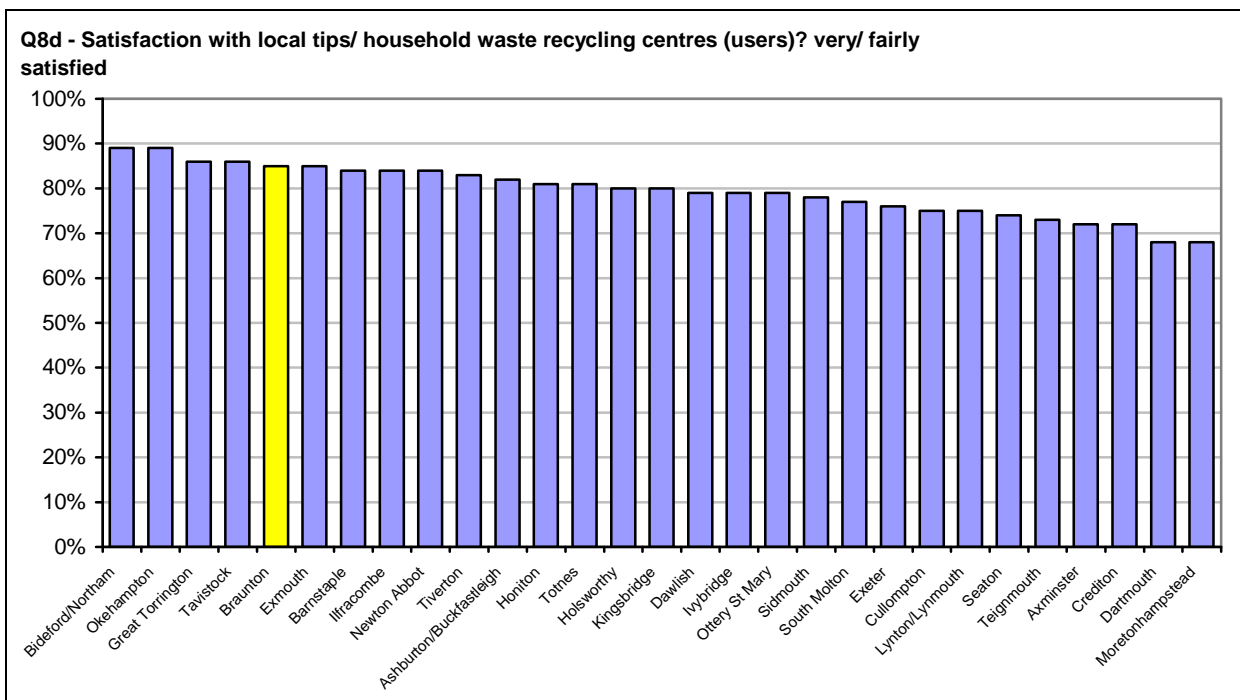

Q8c How satisfied are you with local public services responsible for doorstep recycling? (very/ fairly satisfied)

The Braunton DTA is in the **yellow** quartile with 87% of respondents being very/ fairly satisfied with doorstep recycling. (max 87%; min 61%; national average 70%). Braunton is the most satisfied area in the county.

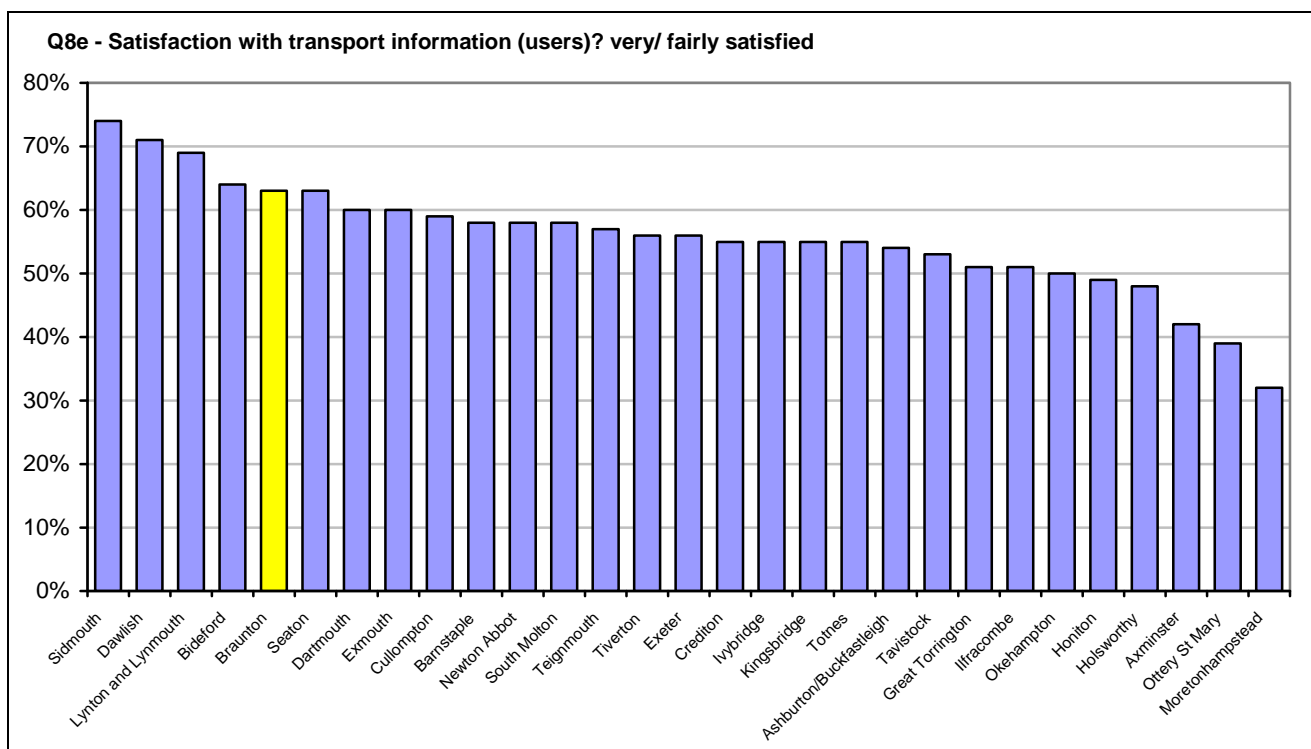

Q8d How satisfied are users with local public services responsible for local tips/ household waste recycling centres? (very/ fairly satisfied)

The Braunton DTA is in the **yellow** quartile with 85% of respondents who used the service being very/ fairly satisfied with local tips and household waste recycling centres (max 89%; min 68%; national average 72%).

Q8e How satisfied are users with transport information? (very/fairly satisfied)

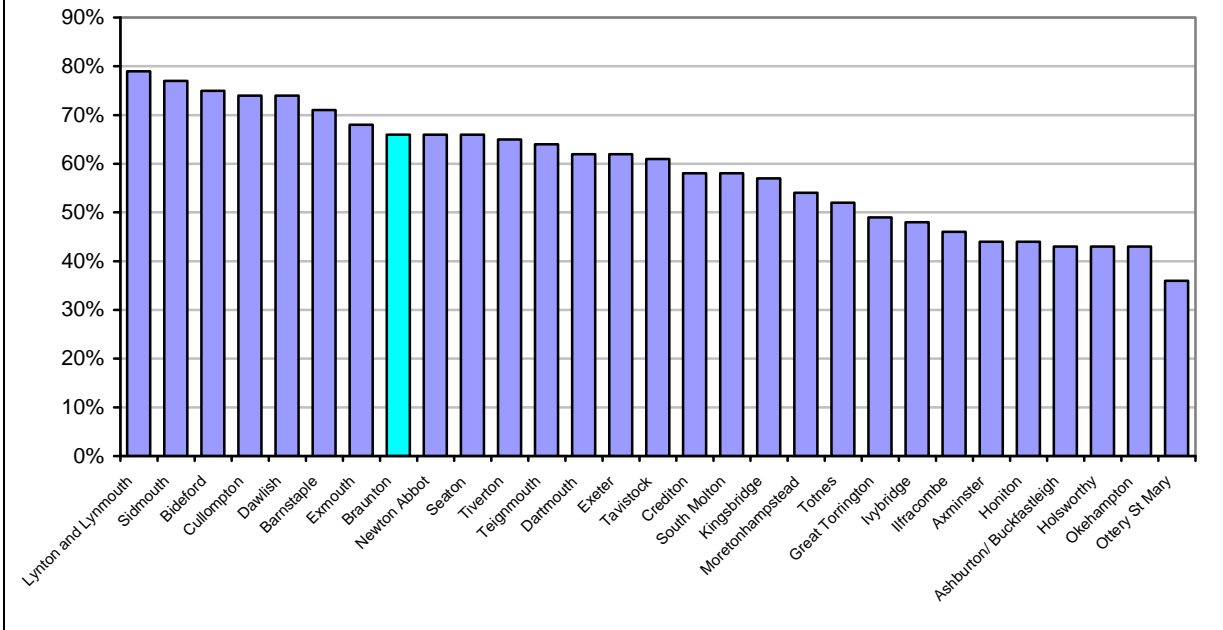

The Braunton DTA is in the **yellow** quartile with 63% of respondents who used the service being very/ fairly satisfied with transport information. (max 74%; min 32%)

Q8f How satisfied are users with local bus services? (very/fairly satisfied)

The Braunton DTA is in the **blue** quartile with 75% of respondents who used the service being very/fairly satisfied with local bus services. (max 79%; min 36%).

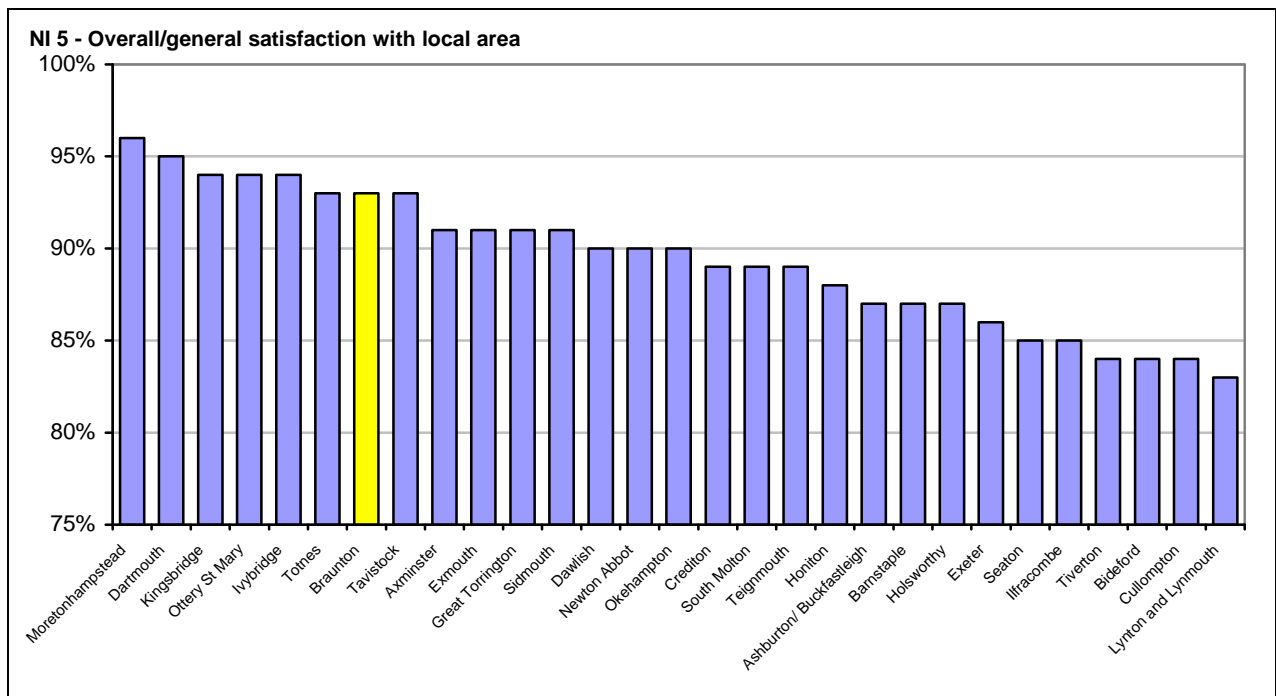

Q8f - Satisfaction with local bus services (users)? very/fairly satisfied

Homes and Housing

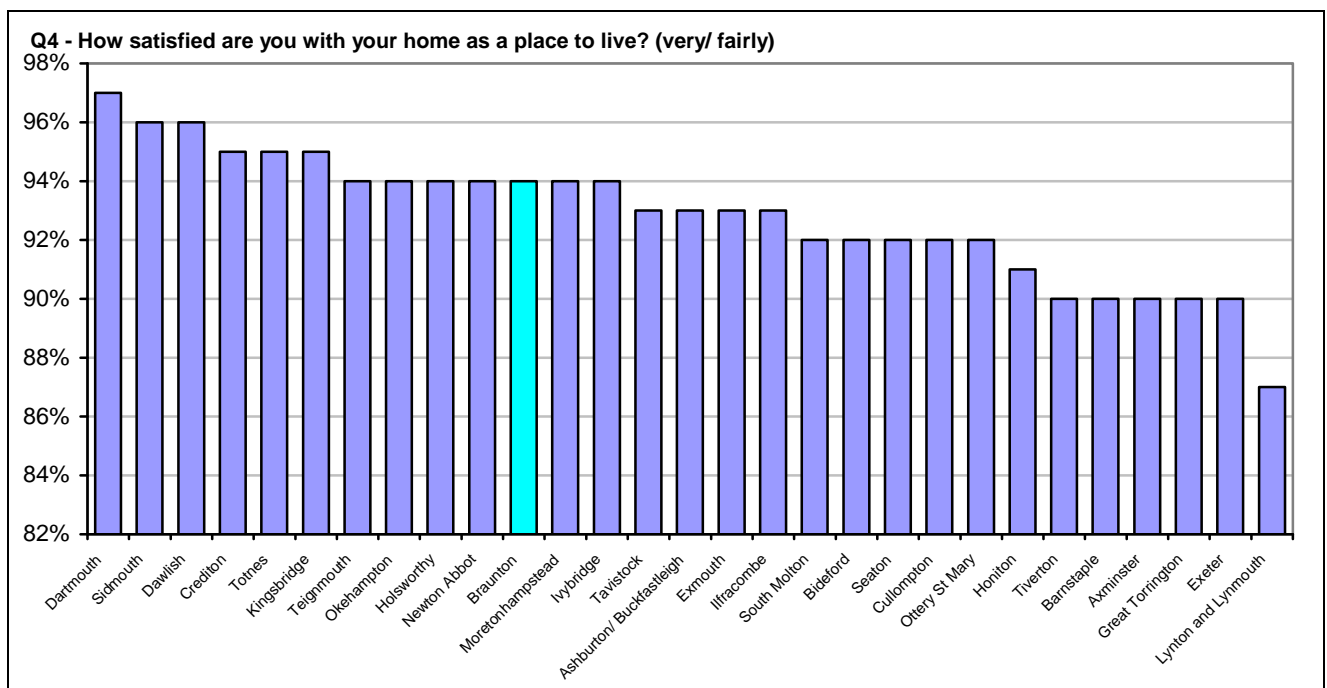

Q3 (NI 5) Overall, how satisfied are you with your local area as a place to live? (very/fairly)

The graph below shows the Braunton DTA falling in the **yellow** quartile with 93% of respondents being very/fairly satisfied with their local area as a place to live (max 96%; min 83%; national average 81%). The areas within the DTA show slightly different results: Braunton Parish (91%) and the hinterlands (98%).

Q4 – How satisfied are you with your home as a place to live? (very/ fairly satisfied)

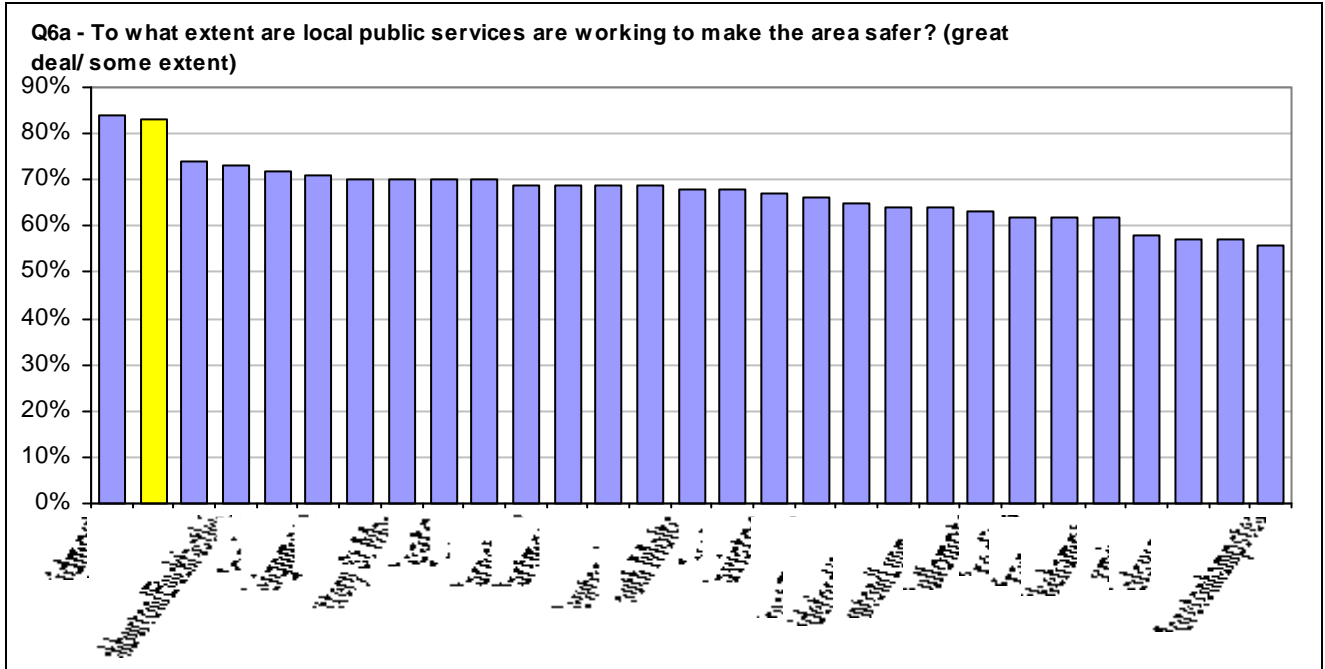

The Braunton DTA appears in the **blue** quartile. 94% of respondents were very /fairly satisfied with their home as a place to live (max 97%; min 87%).

A Safer Devon

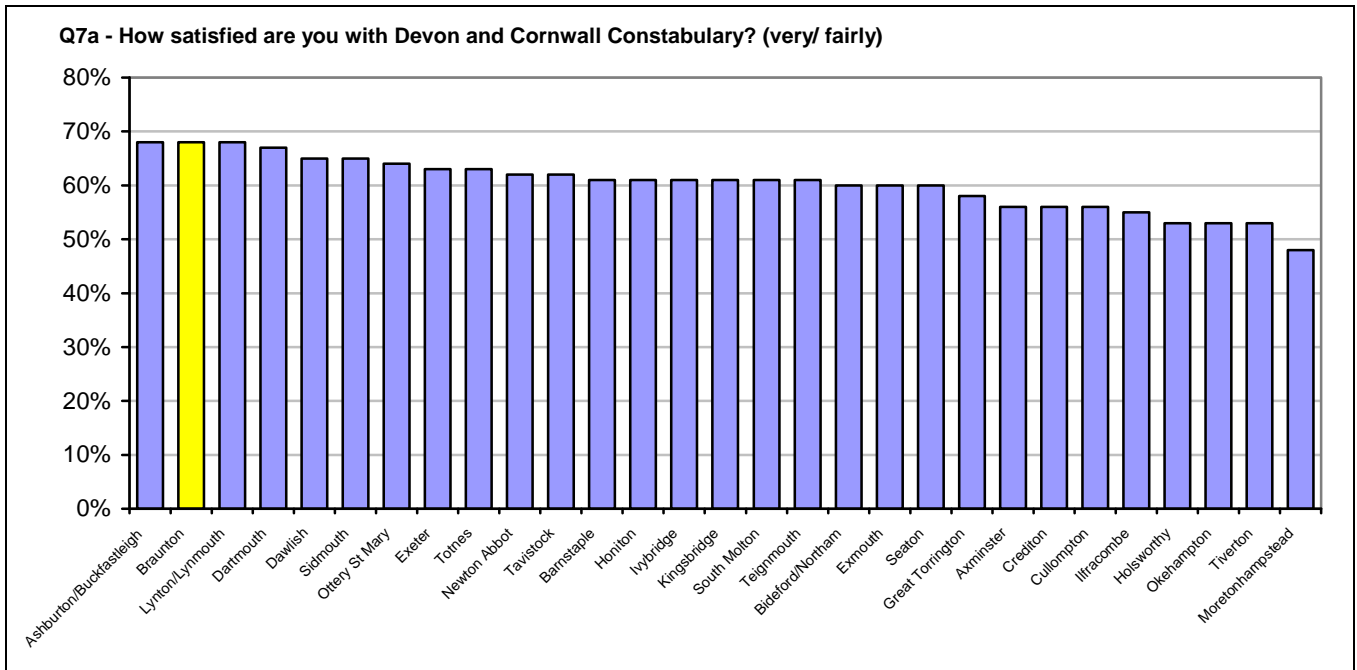

Q6a To what extent are local public services working to make the area safer? (a great deal/ to some extent)

The graph below highlights the Braunton DTA in the **yellow** quartile. 83% of respondents think that think public services are working a great deal/ to some extent to make Braunton DTA a safer place. (max 84%; min 56%). This makes Braunton the second best DTA in the county.

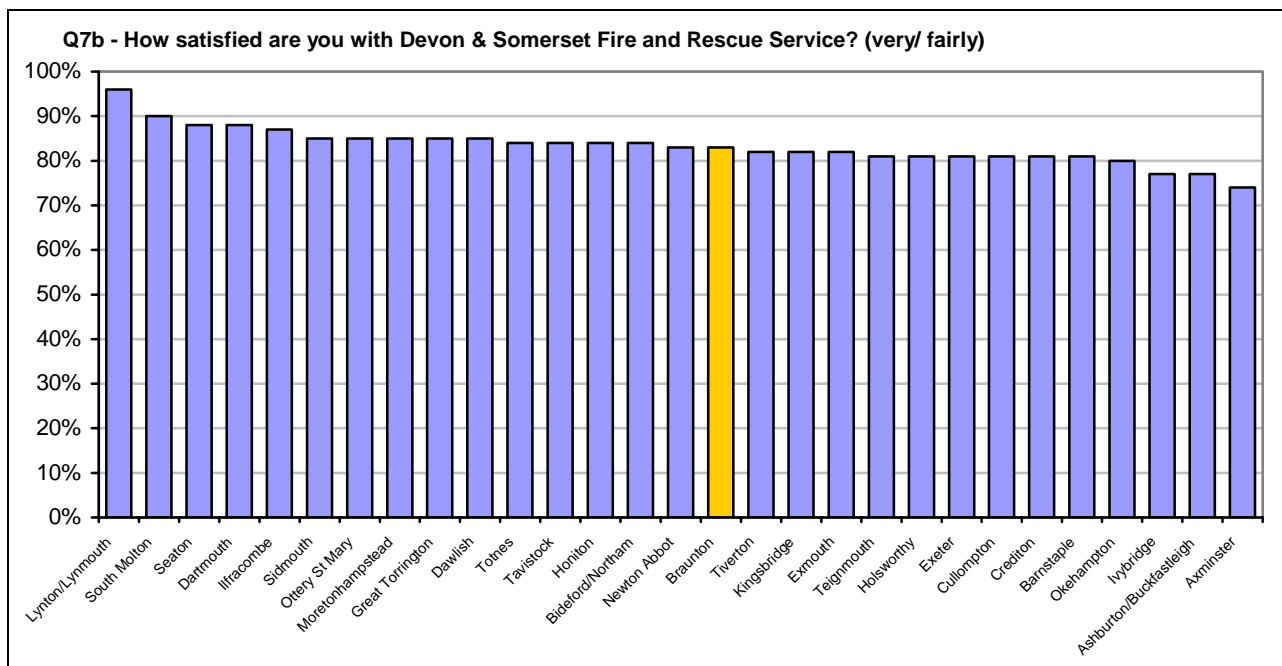

Q7a How satisfied are you with Devon & Cornwall Constabulary? (very/ fairly satisfied)

The Braunton DTA appears in the **yellow** quartile with 68% of respondents very/ fairly satisfied with Devon & Cornwall Constabulary (max 68%; min 48%). Braunton is the second best area in the county.

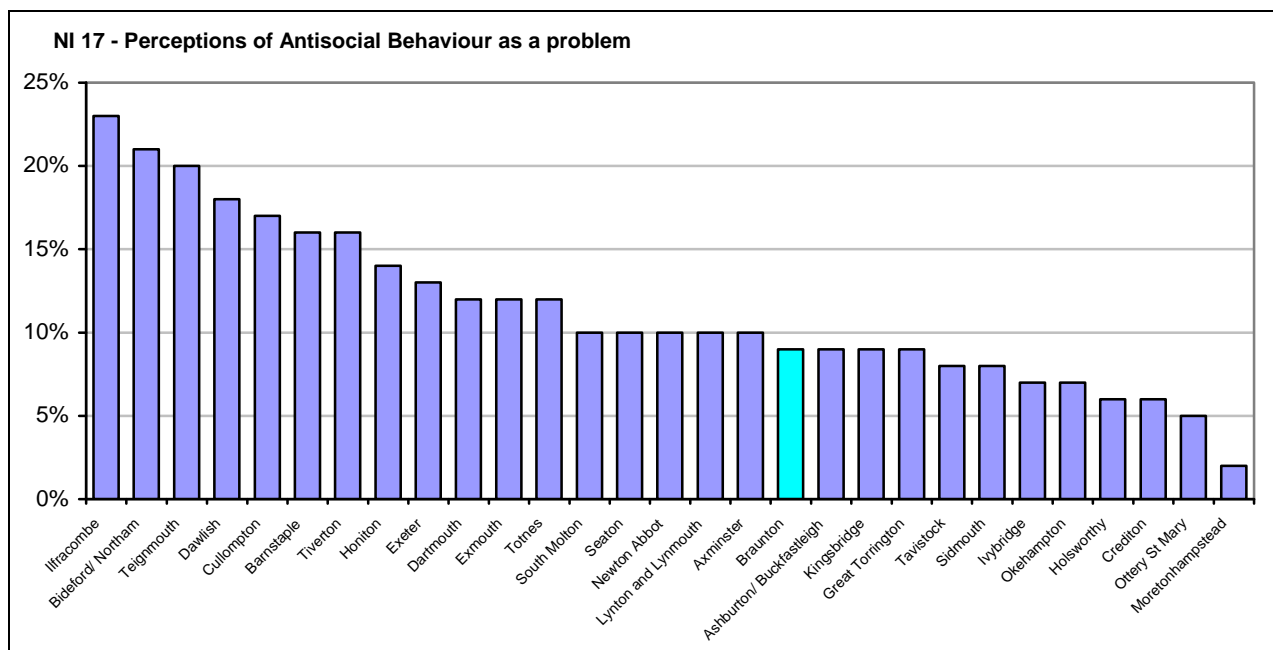

Q7b How satisfied are you with Devon & Somerset Fire and Rescue Service? (very/fairly satisfied)

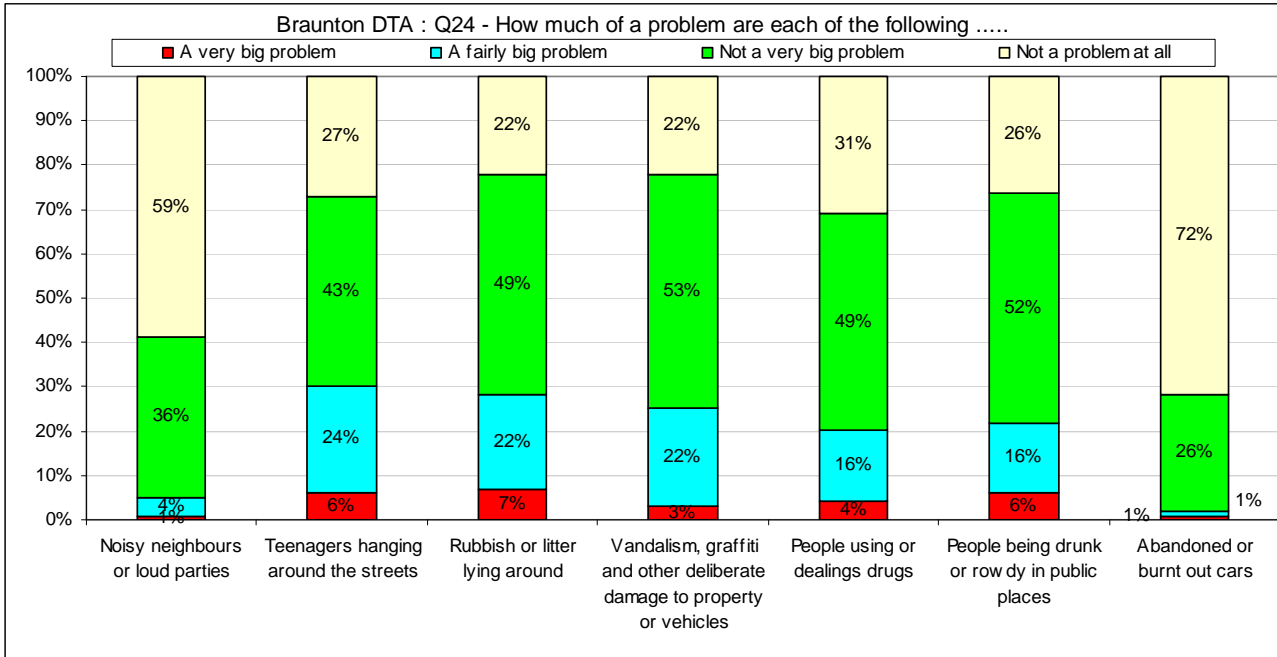

The Braunton DTA appears in the **orange** quartile with 83% of respondents very/fairly satisfied with Devon & Somerset Fire and Rescue Service. (max 96%; min 74%)

NI 17 – Perceptions of antisocial behaviour as a very big/ fairly big problem

This national indicator combines several types of antisocial behaviour (ASB) (see labels on second graph below) to give a combined result for the indicator. The Braunton DTA falls into the **blue** quartile with 9% of respondents seeing ASB as a very big/ fairly big problem (max 23%; min 2%; national average 19%).

The chart above shows that none of the individual aspects of ASB is perceived as a serious problem – the worst being “rubbish or litter lying around”.

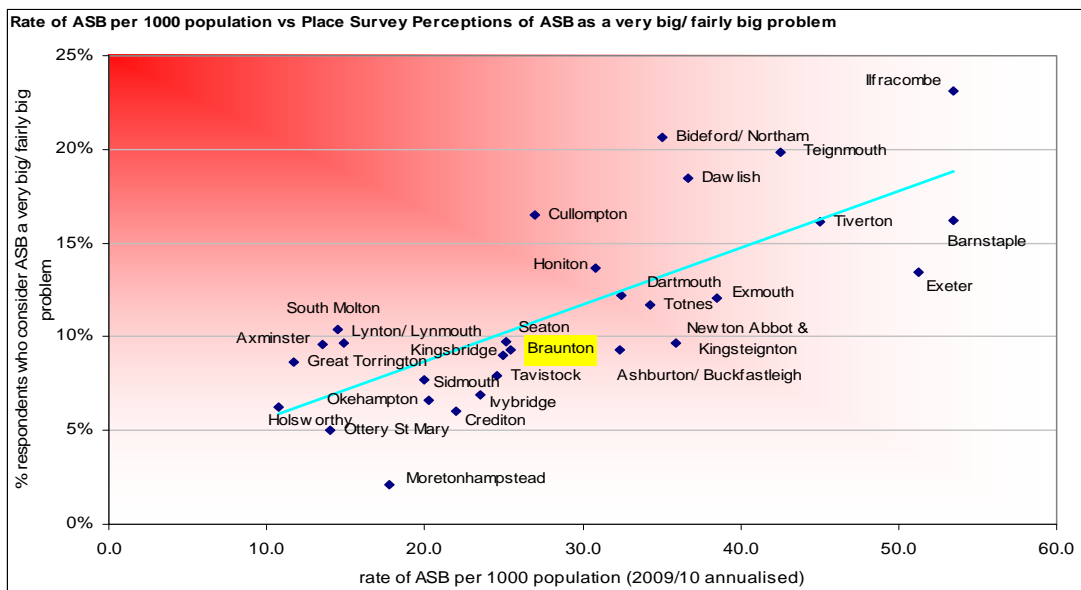

Perceptions of ASB and rates of ASB incidents

The scatter graph below shows the annualised 2009/10 rate (per 1000 people) of ASB in each DTA against the proportion of Place Survey respondents for each DTA who consider ASB to be a very / fairly big problem.

The chart shows a comparatively strong relationship between the rate of ASB and perception of ASB as a problem. In general lower rates of ASB corresponded with comparatively lower proportions of respondents seeing ASB as a problem. None of the DTAs fall into the upper left or lower right quadrants which would indicate comparatively large discrepancies between the real life situation of ASB (as reported to the Police) and their perceptions of ASB.

Braunton DTA lies in the lower left quadrant with both the rate of ASB and perception of it as a problem lying in the blue quartile. Other DTAs with similar rates of ASB have notably lower perceptions of it as a problem.

* based on January to June 2009 Police primary qualifier for ASB

Perceptions of ASB and satisfaction with the district council

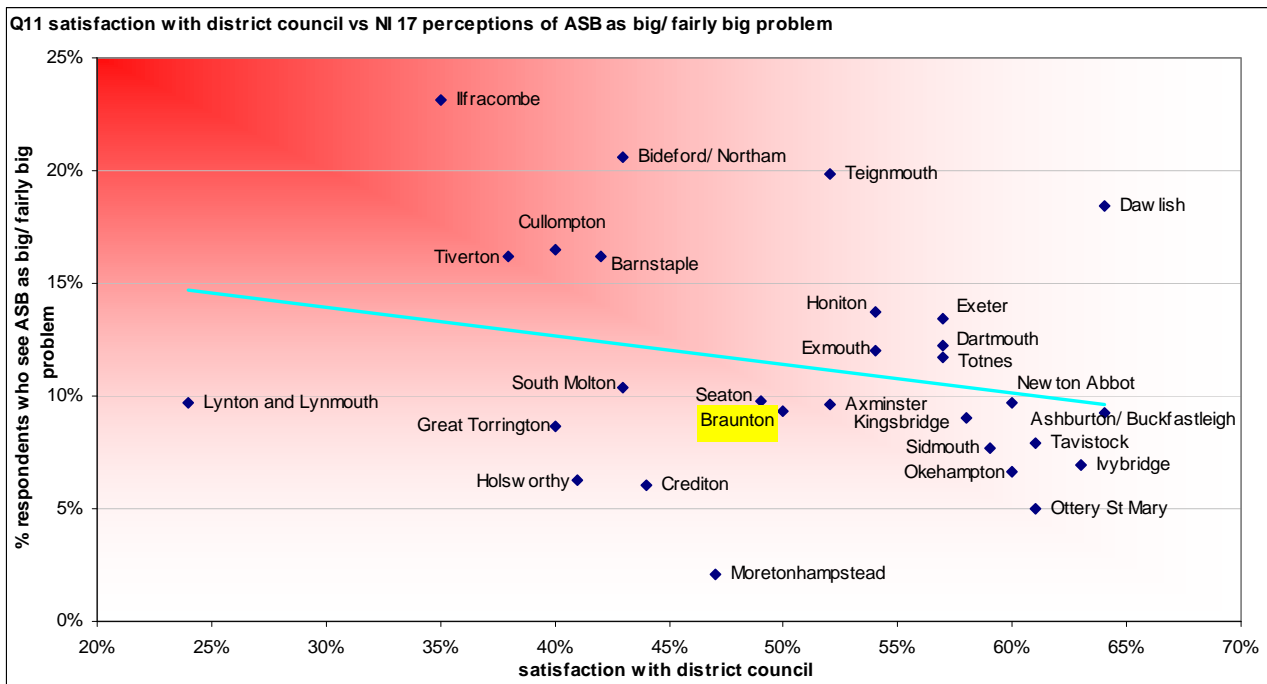

Strategic Intelligence, Devon County Council

statistics@devon.gov.uk

The following scatter graph shows the proportion of Place Survey respondents for each DTA who consider ASB to be a very / fairly big problem against the proportion of the DTA who were either very/ fairly satisfied with their district council.

The chart shows that as satisfaction increases the perception of ASB as a problem falls. Most DTAs however fall into the bottom right quadrant which shows comparatively high satisfaction with their district council and comparatively low perception of ASB as a problem.

Braunton falls into the bottom right quadrant of the chart. It lies in orange quartile with 50% respondents being very/ fairly satisfied with North Devon district council. Other DTAs with similar perceptions of ASB as a problem have however slightly greater satisfaction with their council i.e. Ashburton/ Buckfastleigh, Axminster and Kingsbridge and some have lower satisfaction i.e. Lynton & Lynmouth.

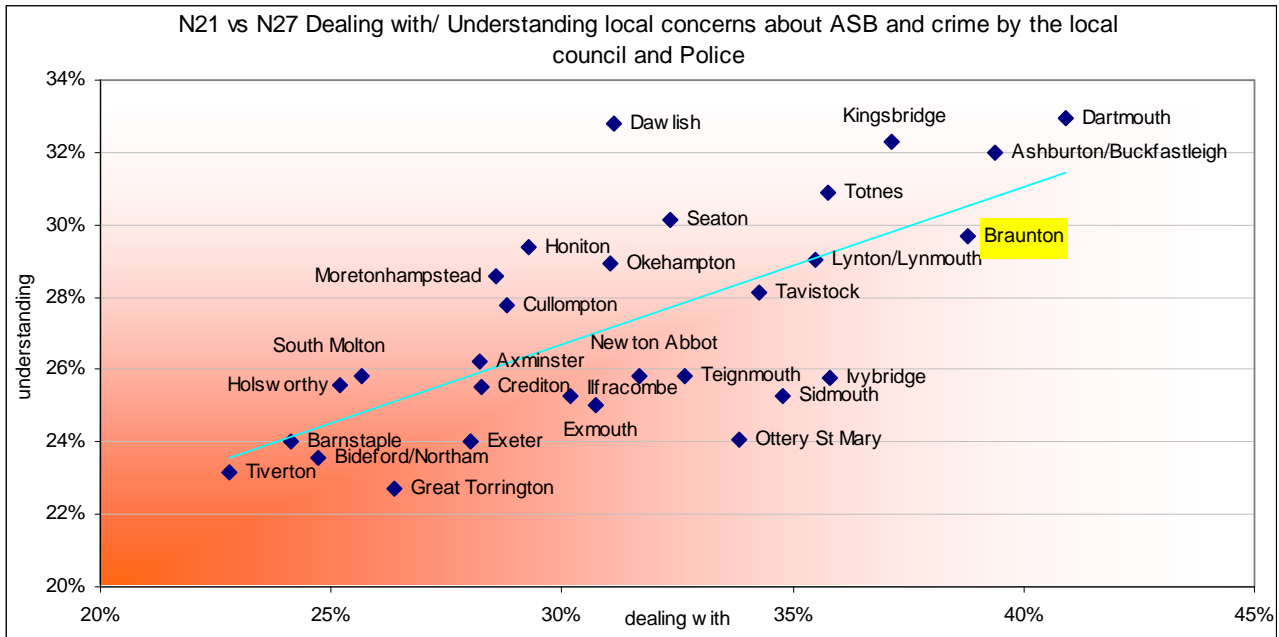

NI 21 – Dealing with local concerns about anti social behaviour and crime the by the local council and police (strongly agree/ tend to agree)

NI 27 - Understanding of local concerns about antisocial behaviour and crime by the local council and Police (strongly agree/ tend to agree)

With respect to NI 21, the Braunton DTA falls into the **yellow** quartile with 39% of respondents strongly/ tending to agree that the local council and Police are dealing with concerns about ASB (max 41%; min 23%; national average 27%).

NI 27 sees the Braunton DTA falling into the **yellow** quartile with 30% of respondents strongly/ tending to agree that the local council and Police understand concerns about ASB (max 33%; min 23%; national average 25%).

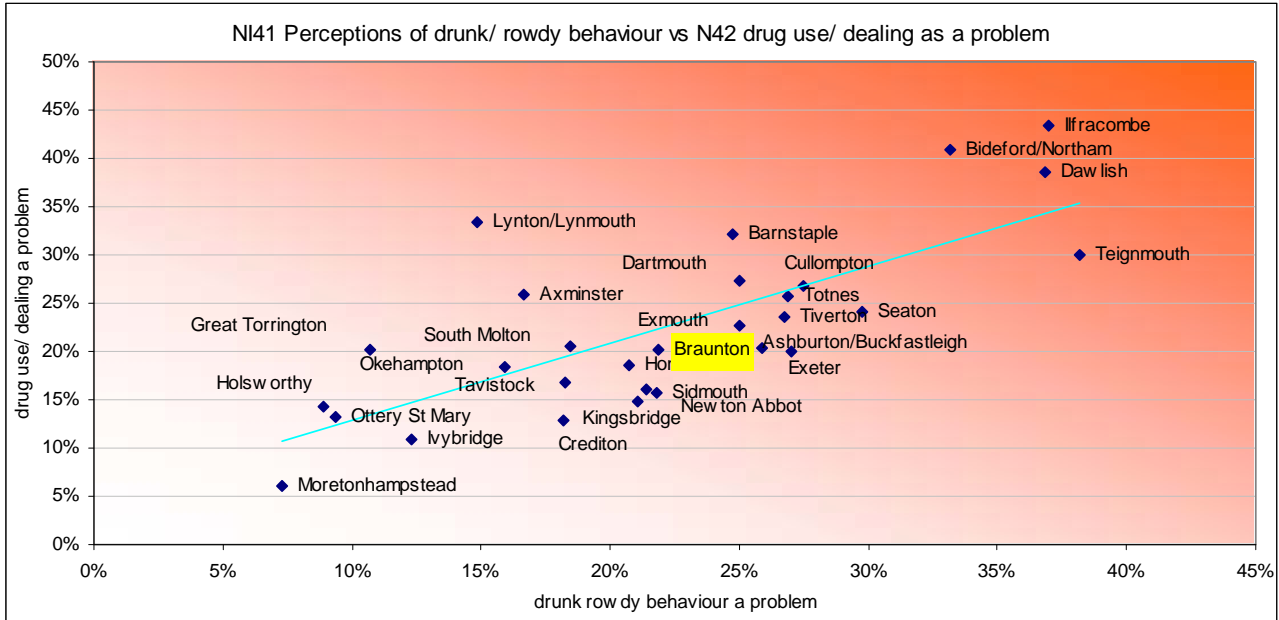

NI 41 – Perceptions of drunk or rowdy behaviour as a problem (very big/ fairly big problem)

NI 42 – Perceptions of drug use or dealing as a problem (very big/ fairly big problem)

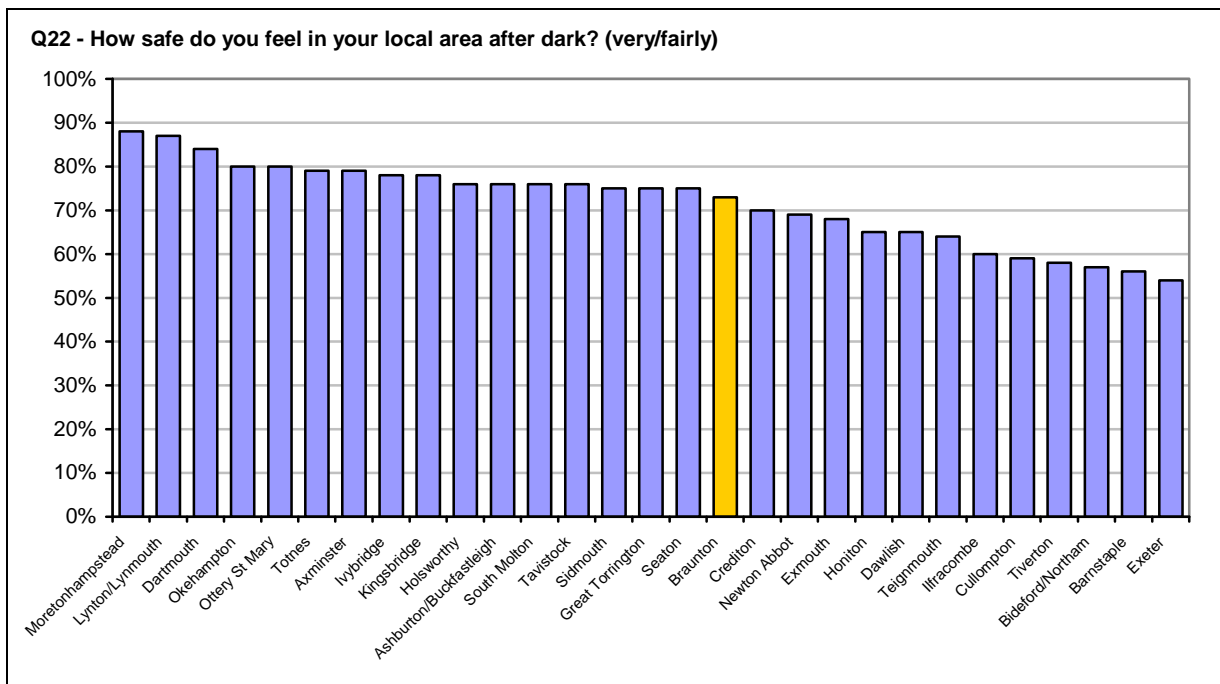

With respect to NI 41, the Braunton DTA falls into the **orange** quartile with 22% of respondents thinking that drunk or rowdy behaviour is a very big/ fairly big problem in Braunton DTA (max 38%; min 7%; national average 28%).

NI 42 sees the Braunton DTA falling into the **blue** quartile with 20% of respondents thinking that drug use or dealing is a very big/ fairly big problem in Braunton DTA (max 43%; min 7%; national average 29%).

Q22 How safe do you feel in your local area after dark? (very/fairly safe)

Respondents in the Braunton DTA feel comparatively less safe than in the other DTA s with results placing them in the **orange** quartile. 73% of respondents felt very/ fairly safe in their local area after dark (max 88%; min 54%).

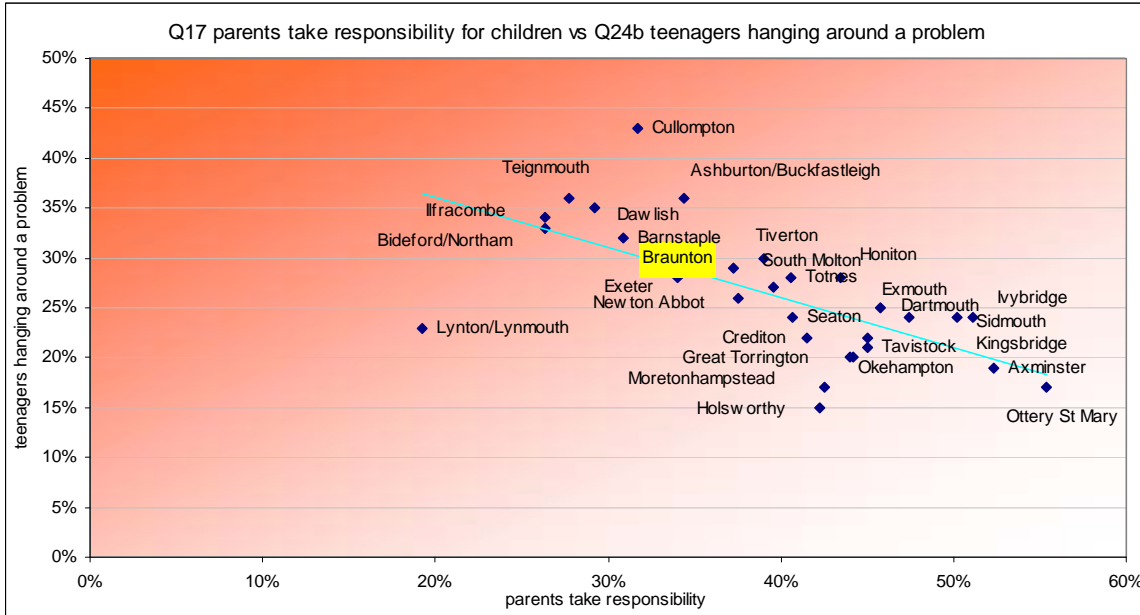

Q 17 – To what extent do you agree that in your local area, parents take enough responsibility for the behaviour of their children? (definitely agree/ tend to agree)

Q 24b – How much of a problem are teenagers hanging around the streets? (a very/fairly big problem)

The scatter graph below shows a correlation between perceptions that parents take responsibility for their children and that teenagers hanging around the street is a problem.

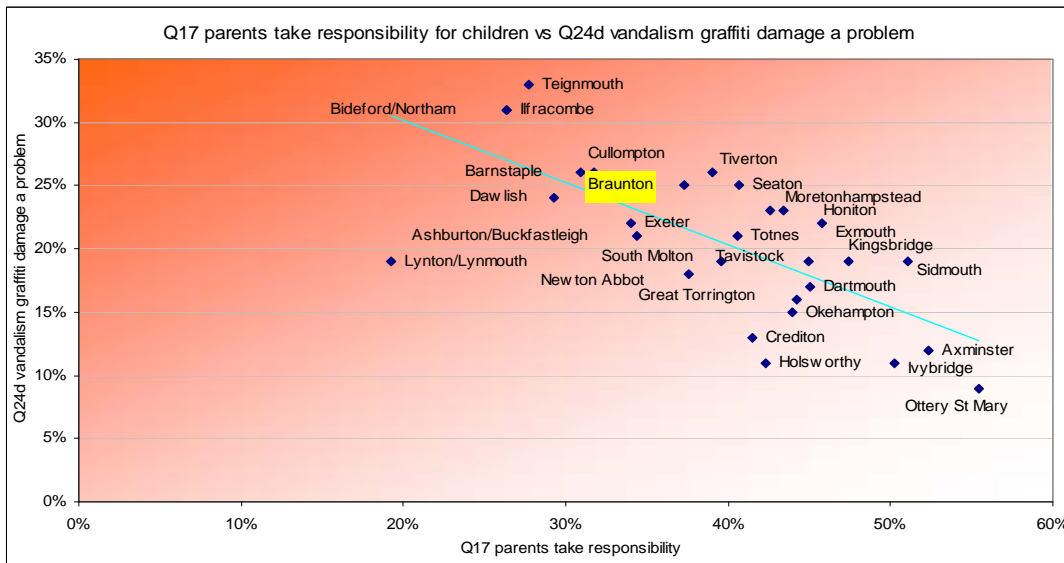

Q17 sees 37% (orange quartile) of the Braunton DTA respondents definitely agreeing/ tending to agree that parents take enough responsibility for their children’s behaviour (max: 55% min 19%). Q24b sees 29% (orange quartile) of the Braunton DTA respondents thinking that teenagers hanging around the streets is a very/fairly big problem (max: 43% min 15%).

Q 24d – How much of a problem is vandalism, graffiti and other deliberate damage to property or vehicles? (a very / fairly big problem)

The scatter graph below shows a correlation between perceptions that parents take responsibility for their children and that vandalism, graffiti and other deliberate damage is a problem.

The Braunton DTA appears in the red quartile with 25% of respondents seeing vandalism and graffiti damage being a big/ fairly big problem (max: 33% min 9%).

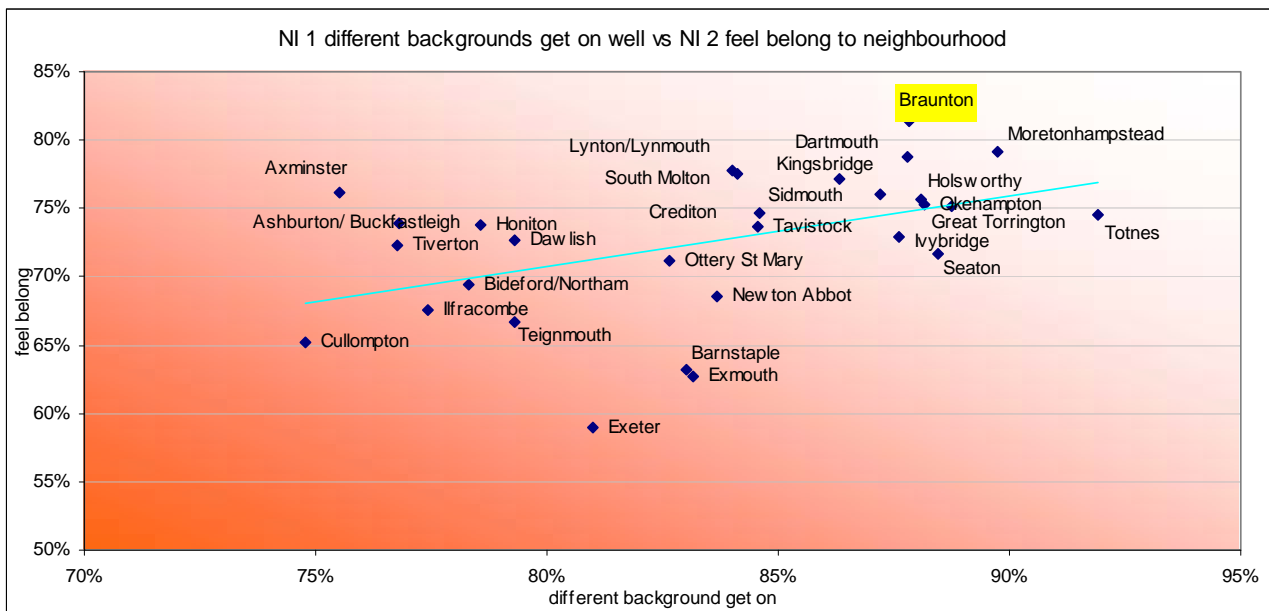

Strong and Inclusive Communities

NI 1; % people who believe that people from different backgrounds get on well together in their local area (definitely agree/ tend to agree).

NI 2; % who feel that they belong to their neighbourhood (very strongly/ fairly strongly).

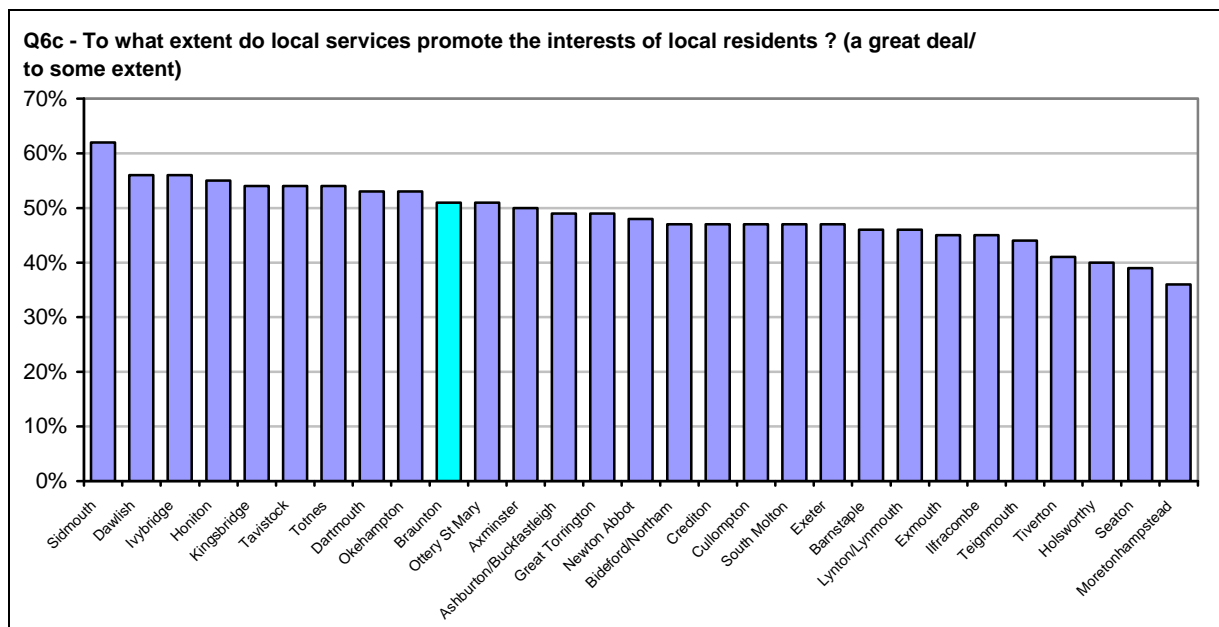

The scatter graph overleaf, shows the Braunton DTA in the **yellow** quartile for NI 1 with 88% of respondents definitely agreeing/ tending to agree that people from different backgrounds get on well together in their local area (max 92%; min 75%).

The Braunton DTA is in the **yellow** quartile for NI 2 with 81% of respondents feeling very/fairly strongly that they belong to their immediate neighbourhood (max 81%; min 59%).

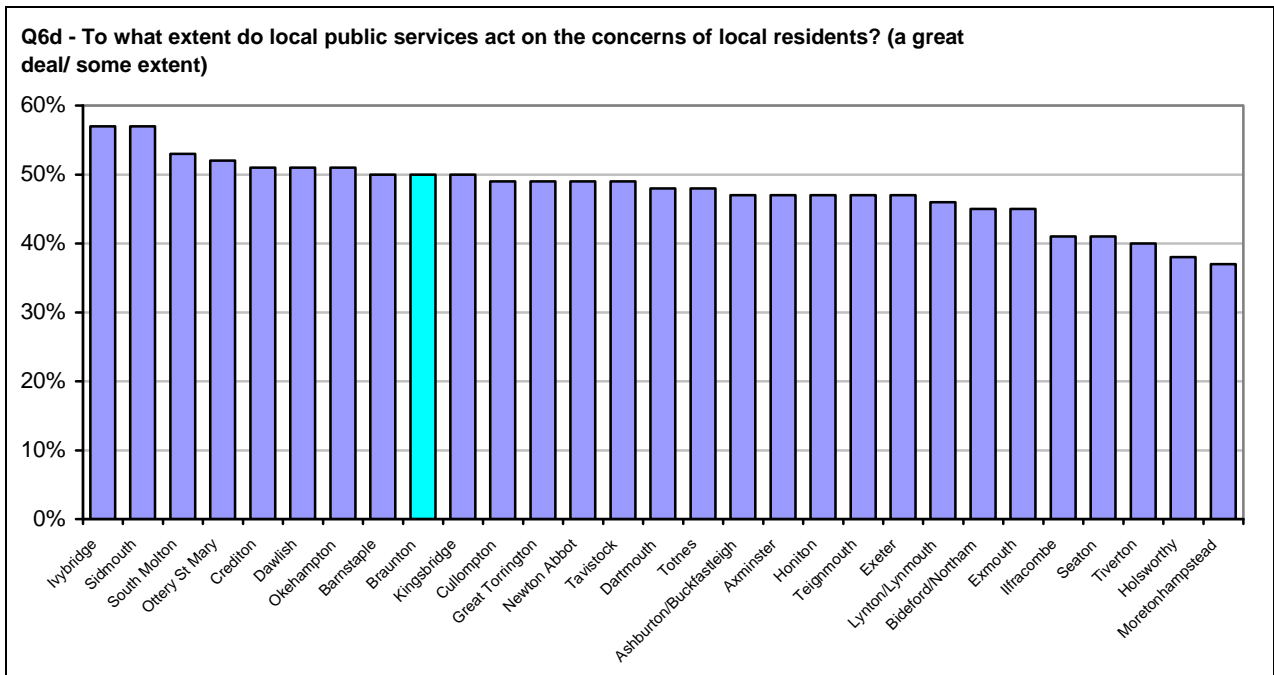

Q6c To what extent do local public services promote the interests of local residents? (a great deal/ to some extent)

The graph below shows the Braunton DTA falling in the **blue** quartile with 51% of respondents feeling that local public services promote the interests of local residents to a great deal/ to some extent (max 62%; min 36%).

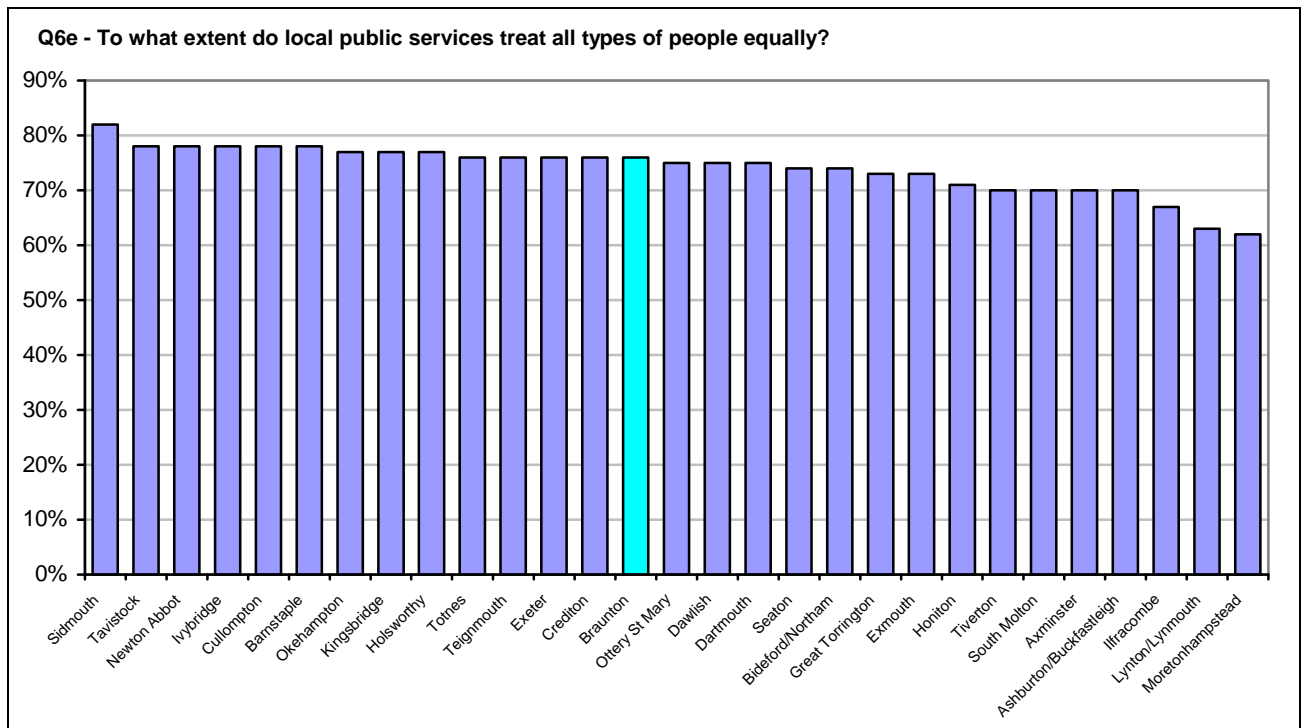

Q6d To what extent do local public services act on the concerns of local residents? (a great deal/ to some extent)

The Braunton DTA falls in the **blue** quartile with 50% of respondents feeling that local public services act on the concerns of local residents a great deal/ to some extent. (max 57%; min 37%)

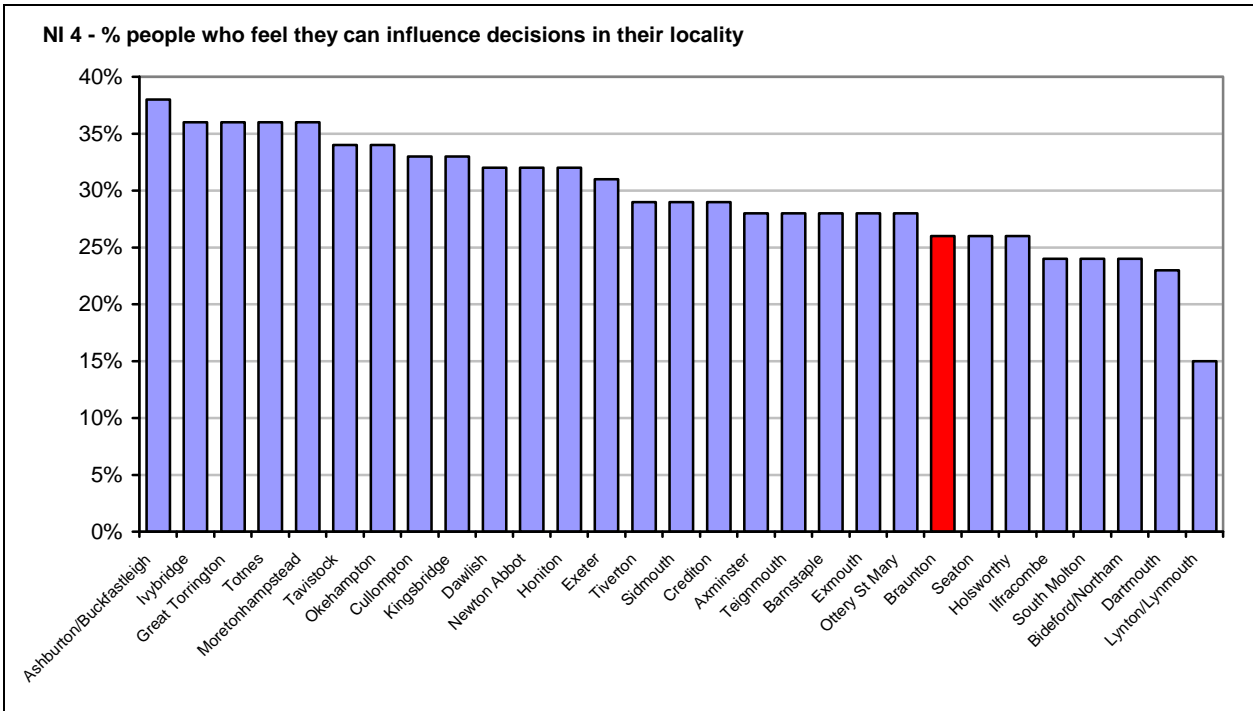

Q6e To what extent do local public services treat all types of people equally? (a great deal/ to some extent)

The Braunton DTA falls in the blue quartile with 76% of respondents feeling that public services treat people equally. (max 82%; min 62%)

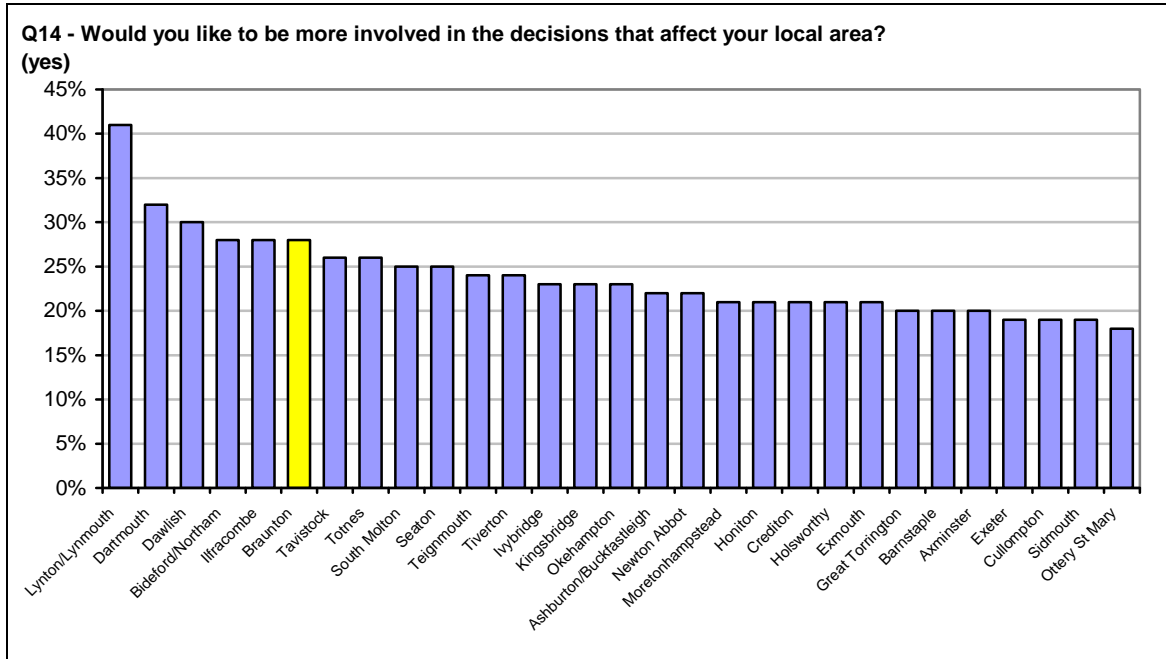

Q13 / NI 4 % people who feel they can influence decisions in their locality (definitely agree/ tend to agree)

The graph overleaf, shows the Braunton DTA falling into the red quartile with 26% of respondents definitely/ tending to agree that they feel they could influence decisions in their locality. (max 38%; min 15%).

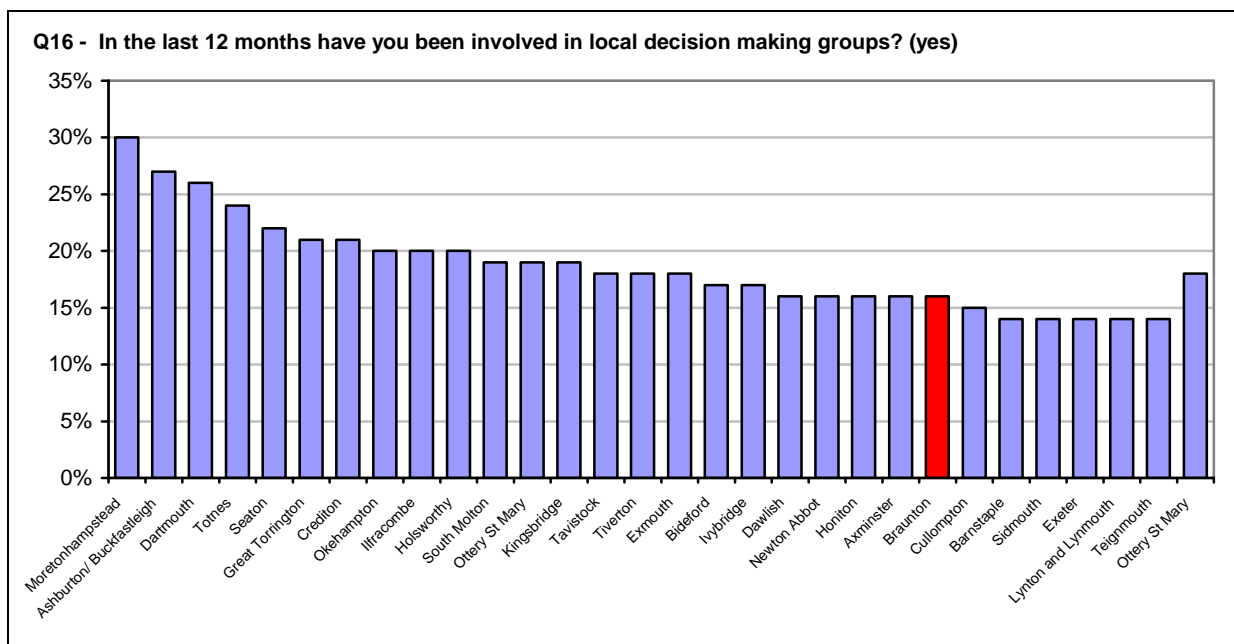

Q14 Would you like to be more involved in the decisions that affect your local area? (yes)

The Braunton DTA falls in the **yellow** quartile with 28% of respondents saying they would like to be more involved in decision making. (max 41%.; min18%; national average 26%)

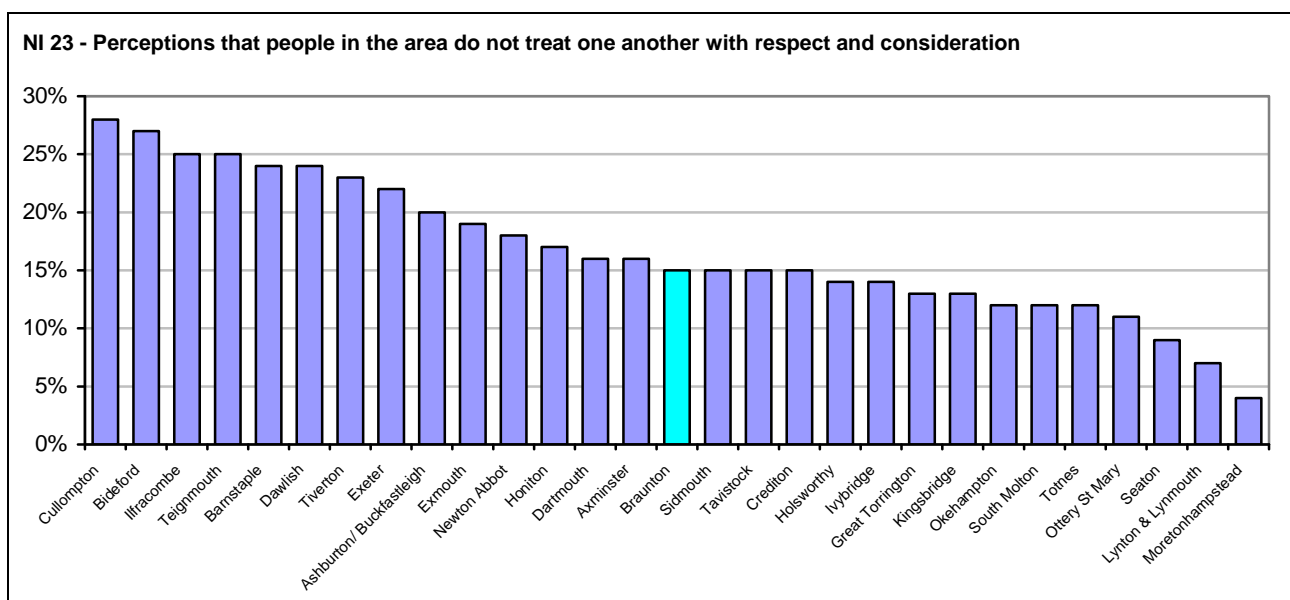

Q16 In the past 12 months have you been involved in decision making? (yes)

The Braunton DTA falls in the **red** quartile with 16% of respondents saying they had been involved in decision making within the previous 12 months. (max 30%; min 14%).

NI 23 Perceptions that people in the area do not treat one another with respect and consideration (a very big problem/ a fairly big problem)

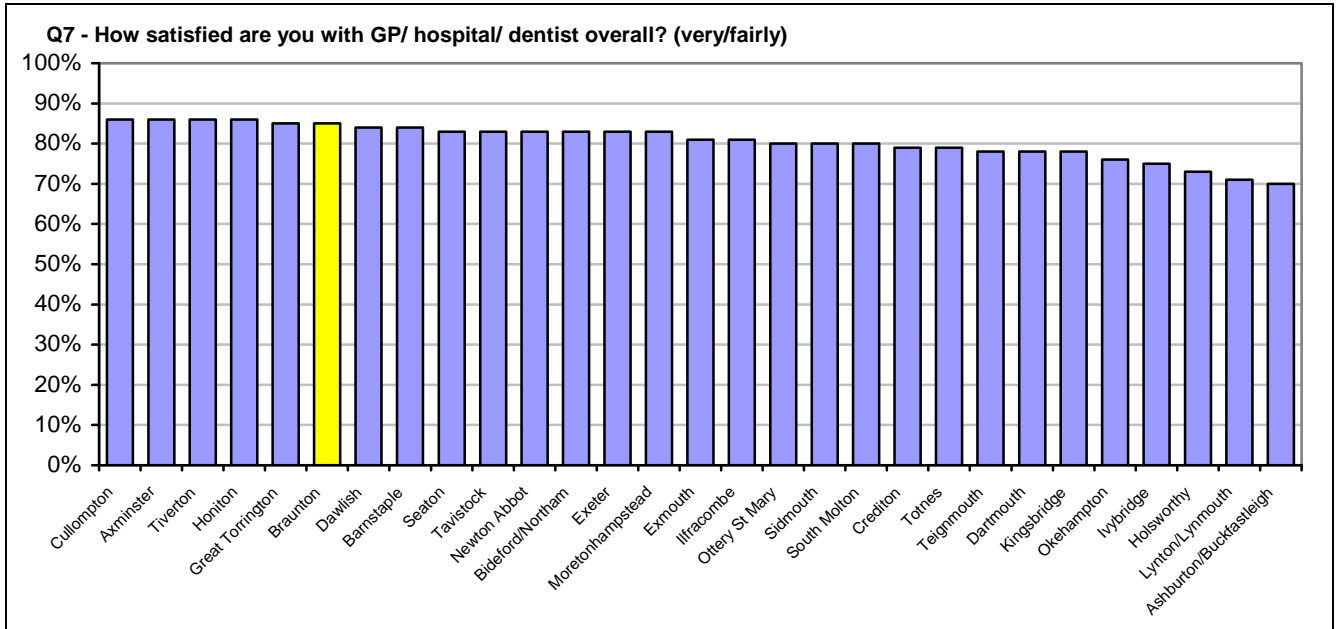

The Braunton DTA falls into the **blue** quartile with 15% respondents thinking it is a very big/ fairly big problem that people in the area do not treat one another with respect and consideration (max 28%; min 4%; national average 30%).

Health and Well Being

This chart is a composite of the satisfaction (very/ fairly satisfied) respondents had with GPs/ the local hospital and dentist.

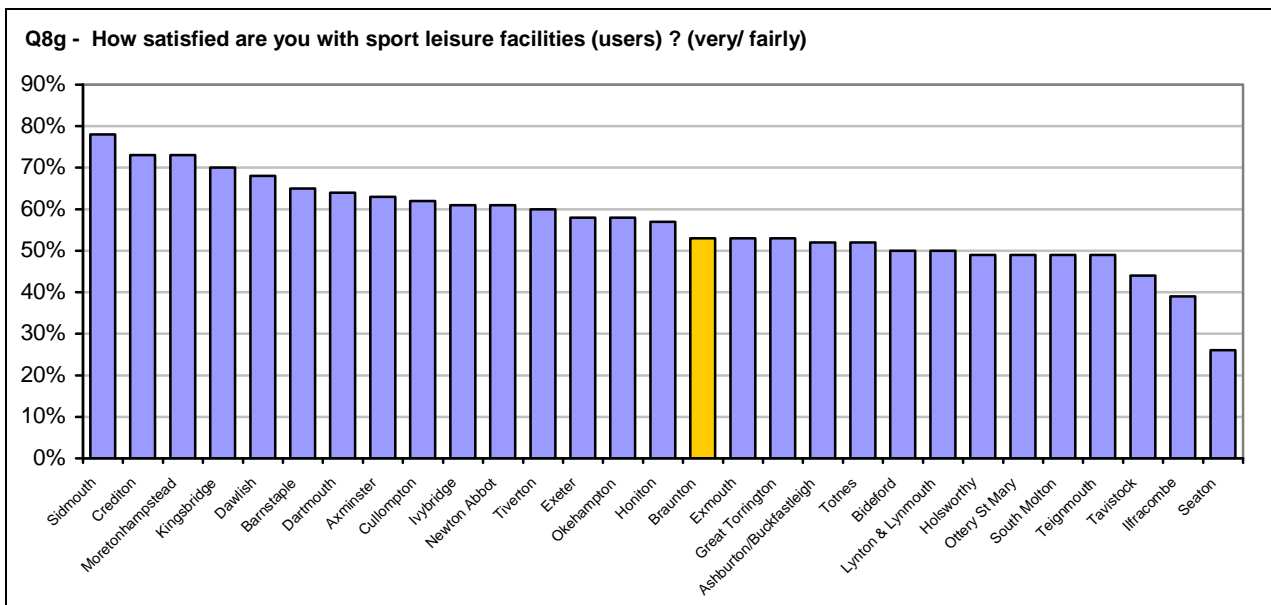

Satisfaction with GPs was 91% (range 84% to 94%), the dentist was 73% (range 42% to 83%) and the local hospital was 90% (range 74% to 93%). Overall satisfaction averaged 85% which was in the **yellow** quartile (range 70% to 86%).

Inspiring Young People

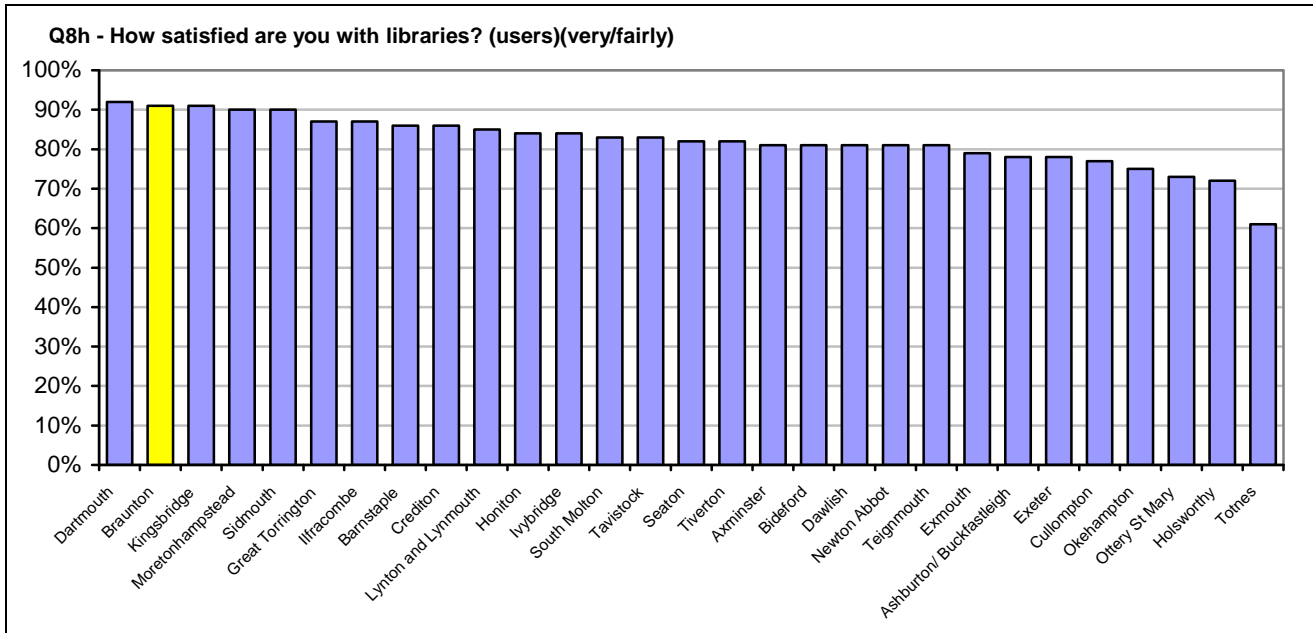

Q8g How satisfied are you (users) with sport/ leisure facilities? (very/ fairly satisfied)

The Braunton DTA falls in the **orange** quartile with 53% of respondents who use sport and leisure facilities being very/ fairly satisfied with them. (max 78%; min 26%)

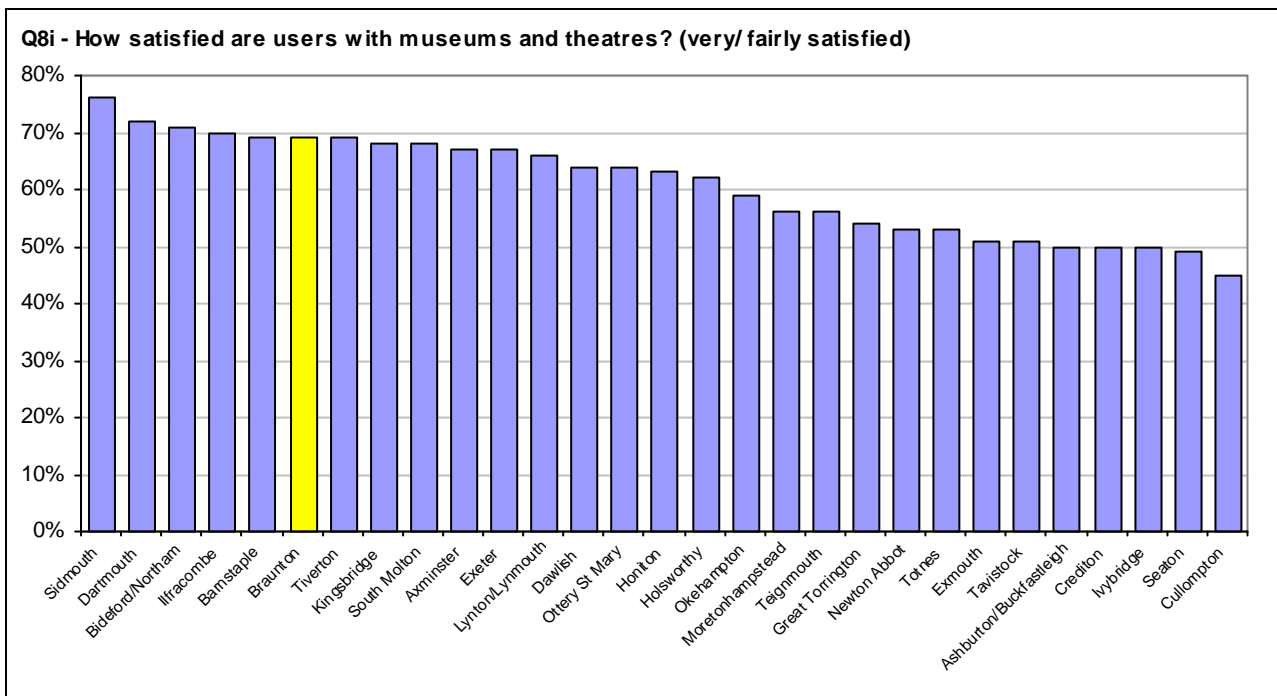

Q8h How satisfied are you (users) with libraries? (very/ fairly satisfied)

The Braunton DTA falls in the **yellow** quartile with 91% of respondents who use the libraries being very/ fairly satisfied with them. (max 92%; min 61%) . This puts Braunton as the second most satisfied Devon Town area in the county.

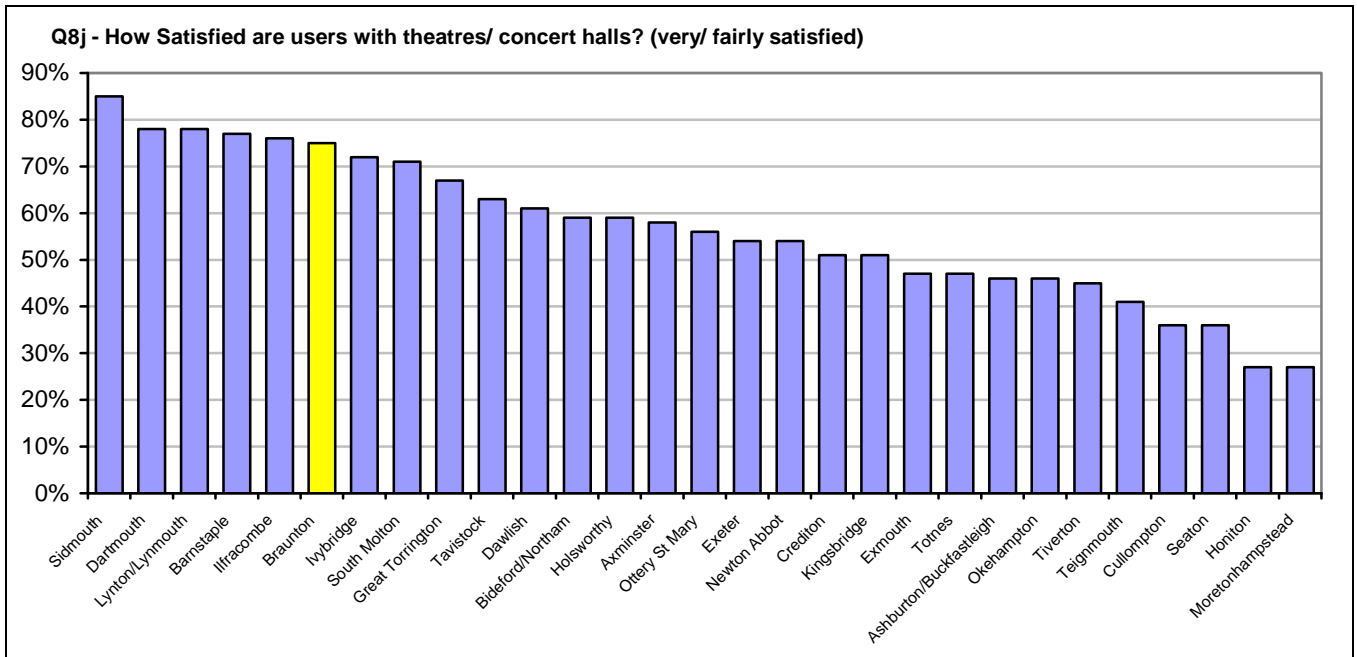

Q8i How satisfied are you (users) with museums/ galleries? (very / fairly satisfied)

The Braunton DTA is in the **yellow** quartile with 69% of respondents who use museums/ galleries either very/ fairly satisfied with them (max 76%; min 45%).

Q8j How satisfied are you (users) with theatres/ concert halls? (very/ fairly satisfied)

The chart below again shows the Braunton DTA in the **yellow** quartile with 75% of users who visit theatres/ concert halls being very/ fairly satisfied with theatre/ concert halls (max 85%; min 27%).

Q8k How satisfied are you (users) with parks and open spaces? (very/fairly satisfied)

The graph below shows the Braunton DTA in the **blue** quartile with 78% of respondents who use parks and open spaces being very/ fairly satisfied with them (max 91%; min 60%).
