

Example of a Third Party Payment Arrangement

Home Fee is	£400
Client assessed as Requiring a Residential Band 4 placement @	£354 (DCC Contribution)
Shortfall = Third Party Payment	£ 46

The Client in the home has a financial assessment completed, the outcome of which requires the person to pay £124.30 per week contribution towards the cost of their placement.

The £46 third party contribution is added to the client contribution to arrive at the total weekly amount that must either be paid direct to the home or paid by a four weekly bill to Devon County Council.

In this example the total weekly payment due from the client and Third Party is £124.30 plus £46 = £170.30.
