

## Area definition

This profile, one of 29 covering the area of Devon County Council, has been generated by Strategic Intelligence with the aim of contributing to. It provides a statistical overview, based on a series of facts and figures, of what life is like in the area.

The profile is structured around a series of themes to cover social, economic and environmental well being. It is part of a suite of documents that provide information about the area and the people living there. Further information is available on the Devon County Council website (<http://www.devon.gov.uk/devontownprofiles>).

Each area is built up from parishes with one or more population centres and the remaining rural hinterland. Further information about the creation of the Devon Town geography can be found at the end end of this report.

## Population attributes

Information about the people that live in the area is taken from Experian's Mosaic data. Mosaic is based on the assumption that people living in an area are likely to be similar; however, it does not provide definitive description of each person.

The Mosaic data are broken down in to a number of groups, each one describing a section of the population.

	Households	%	Devon
A -Residents of isolated rural communities	898	15.5%	20.5%
B -Residents of small and mid-sized towns with strong local roots	969	16.7%	17.2%

## Deprivation - 2010

The principal source of deprivation data is currently The Indices of Deprivation 2010. This is a Lower Super Output Area (LSOA) level measure of deprivation. There are over 32,000 LSOAs in England, each one containing about 1,500 people. They were developed following the 2001 Census. The index comprises seven domains: income, employment, health & disability, education & training, barriers to housing & services, the living environment and crime. These are combined to give an overall indication of deprivation.

### Population living in deprived areas

Population within most deprived 25% of all areas in England	1,089
% population within most deprived 25% of all areas in England	12%
Population within least deprived 25% of all areas in England	1,570
% population within least deprived 25% of all areas in England	17%

Deprivation data are not available for wards but the following tables show which wards contain the most deprived LSOA in the Town Area

## Place Survey - 2008

The 2008 Place Survey provides information on people's perceptions of their local area and the local services they receive. The survey collects information on 18 national indicators for local government, used to measure local government performance for 152 county councils, metropolitan district councils, London boroughs and unitary authorities.

Further information can be found on the Department for Communities and Local Government's website: [www.communities.gov.uk](http://www.communities.gov.uk)

Figures are the proportion of people responding to the survey who live in the Dartmouth Town Area.

## Identifying Devon Towns

The main factor that decides a town's hinterland is provision of services; the place that the hinterland looks to in order to provide the things it needs to survive. In order to identify the 28 Devon Towns, analysis of the following services and other relevant factors have been taken into account:

- Local Travel Plans – which are based on public consultation and map local travel patterns, the majority of which are short ones in and around local communities as part of people's daily lives.
- Shopping catchment areas – which are the service most frequently accessed by people.
- Learning Community catchment areas – which have a major influence on where people look to for services. Learning Community catchments do not always follow district or even county boundaries, but are based on a collection of feeder primary schools.
- Market and Coastal Towns Initiative areas - The Market and Coastal Towns Initiative was started after recognition that the health of a market town is vital to the well being of its hinterland, and that many of Devon's market towns were in need of regeneration. It was a Central Government initiative, administered by the RDAs. Over half of Devon was included in the Market and Coastal Towns Initiative.
- Parishes - The boundary definitions are shown in terms of parishes, as they are traditionally the smallest area used for 'clustering'. The diagram below is an illustration of how this works for one Devon Town: Kingsbridge.

Exeter also provides a similar or related "market town" function as well as being a sub regional centre with a larger sphere of influence.
