

SEAL - DT Links Years 5 and 6

New Beginnings

Activity 1

Objectives: As for QCA Unit 5A Musical instruments

When the children create their creation dance for the end-of-theme assembly, they could make their own instruments to use for the dance.

Activity 2

Objectives: As for QCA Unit 6A Shelters

This unit of work on creating shelters could link with the geography work on producing a design for a perfect community, or with the history activity with children designing temporary accommodation for people who have lost their homes. This could also link to emergency accommodation after earthquakes, for refugees, and so on. Include discussion about what people in a particular situation need. How does the structure serve that need? Does it help the community?

Getting on and falling out

Going for goals

Children work together on setting a task and then choose the appropriate materials, methods and tools to complete the task. This demonstrates the need for careful planning in the achievement of a goal.

Good to be me
