

CWDC TRAINING STANDARD 6.3d *page 70*  
**KEEPING CHILDREN AND YOUNG PEOPLE SAFE FROM HARM**

**Worksheet for the DVD 'Fighting Fire with Water – dealing with bullying and children in care.'**

Using the DVD and the Information Sheet with its summary and sources of information, along with your workbook and any other resources you might need, make notes in the boxes for your answers.

- What makes children in care vulnerable to being bullied, or to becoming bullies themselves?

- In what different ways might children and young people be bullied?

- How would you recognise that a child or young person was being bullied?

- How would you try to understand the underlying causes of the problem?

- What action would you take if you suspected a child or young person is being bullied?

- How would you work towards giving the child or young person the skills to overcome the problem, and avoid it in the future?

*When you've made your notes, collect all the evidence you need and go through it all with your Social Worker to get Standard 6.3d signed off.*
