

CWDC TRAINING STANDARD 5.5 *page 56*
SUPPORTING EDUCATIONAL POTENTIAL

Worksheet for the DVD 'Fostering a better Education'

Using the DVD and the Information Sheet with its summary and sources of information, along with your workbook and any other resources you might need, make notes in the boxes for your answers.

- Describe active ways in which you can provide support for children and young people to have aspirations, and how you can enable them to achieve in their education.

- Give examples of how you can help pre-school children with their learning and development.

- Show how you have worked with others to support a child or young person's education.

- How could you support a child or young person who was not attending school? Find out what support is available.

- Make a list of resources and support available for young people who have left school. Do you understand the term 'social exclusion'?

- What skills do you need to have to make sure that a child or young person attends school and that their educational needs are being met?

When you've made your notes, collect all the evidence you need and go through it all with your Social Worker to get Standard 5.5 signed off.
