Dear Ms Fawbert

Thank you for meeting with Lester Willmington and myself on 6 June and showing us first hand the access difficulties at Summerfield Mews. We welcomed the opportunity to discuss the problems with you, Mr Williams and the other two gentlemen who were able to join us.

Since then we have been discussing the problems, considering your ideas and what we might be able to do to help.

We would like to try to alleviate the problem by hatching out an area of the existing parking provision to attempt to discourage use. Before we can do this we need to consult your local County Councillor, Parish Council, local businesses in the immediate area and assess the impact on disabled people. This will take about one month.

When we next review traffic orders in the town we will also consider swapping the areas of loading and disabled persons parking. There is a cost and legal process to alter traffic orders which is why we are unable to tackle this immediately.

We do acknowledge the difficulty of the current situation and I hope you feel that our response demonstrates that we are taking the matter seriously.

Yours sincerely

Angela Welch
Executive Assistant to the Chief Executive
