Coming to a screen near you...

The New SIMS Home Page – Available with the March Upgrade.

There is something to help everyone with their day to day tasks.

The Home Page provides an overview of the key content in your SIMS system, such as events from the School Diary, reminders, messages, etc. together with group summary information on attendance, behaviour incidents, achievements and assessments.

A default set of panels is initially displayed, but the Home Page can be customised by each user. The School Bulletin panel and the My Classes Today panel are displayed on the Home Page by default (but can be removed if required). Further panels can be added or removed, enabling you to view as much or as little information on your Home Page as required. The display order of the panels can be changed and the text on each panel can also be amended to reflect your requirements.

INVESTOR IN PEOPLE

Green Abbey School

Title	Bulletin Date
August School Bulletin	23/08/2008

1 The **Configure** button enables you to set up the number, layout and order of summary panels on the **Home Page**.

2 Most supporting documentation is available from the **Documentation Centre**, accessed by clicking the **Documentation** button.

3 **School Bulletin** – displays any school bulletins that have been published. Click on item links to display more detail (this also applies to other panels).

4 **My Classes today** - displays a timeline for classes you will be teaching today (applicable only to Class Teachers and Teaching Assistants). The new arrows at the end of the panels will take you back or forward a day.

5 Panels are displayed here. New users of SIMS will not see any content in these panels until they are configured.

6 Click on a section of the Pie Chart to display a list of those pupils/students represented in that section. From the list given you can click on any and be taken to the Student Teacher View.

7 The “**More...**” hyperlink is displayed on panels when more items are available.

The following panels can be displayed on the Home Page:-

- My Lesson Plans
- My Supervised Groups
- School Diary
- My Reminders

- My Messages
- My Favourites
- My Favourite Reports
- Missing Registers Notification

More than one instance of the following panels can be added to your Home Page, enabling the view of summary information for each year group, registration group, class, etc. A Head of Year, for example, is able to view the same type of data across a range of registration groups, whereas a Head Teacher can view a range of data across multiple year groups:-

- Attendance Summary
- Assessment Summary
- Behaviour Summary
- Achievement Summary

This is a significant improvement to the Home Page and it will make it easier for users to stay up to date with pupil/student data.

In order to enable schools to make the most of these enhancements ScoMIS are happy to provide a training presentation on how the Home Page can be configured to help you with your daily routine.

Please telephone **Course Bookings 01392 385301** or email bookings@devon.gov.uk - in order that we can gauge interest and possibly put on a presentation in your area.

Why not get together with a group of colleagues from your Local Learning Community? – We can do a presentation in a venue which suits your requirements.

Further details of costs available on request.
