

Officer Decisions

Head of Planning, Transportation and Environment - Simon Niles

Summary of Matter or Issue Requiring Decision

Seeking approval to publish an updated version of the [Education Approach for Developer Contributions](#) dated December 2021.

Decision Taken

The following points were approved:

- Approval to publish an updated version of the Education Approach for Developer Contributions (formerly named Education Section 106 Infrastructure Approach) dated December 2021.
- Approval to periodically update the costs included within this document without further authorisation when the DfE publishes updated school place scorecards. These are usually published on an annual basis. The updated costs will be published on the Pupil Place Planning website.

Summary of Reason(s) for Decision Taken

Summary of Alternatives or Options considered and rejected

An alternative option would be to continue using the existing approach (February 2020). However, this is now out of date and would reduce the authority's ability to secure adequate funding towards education infrastructure and meet its responsibilities around pupil place planning.

Details of any conflict of interest and dispensation granted to the Officer taking the decision or by any Member of the Council in delegating responsibility for any specific express delegation

None.
